

<i>Sorted in date order</i>		<i>(Alphabetic list follows)</i>
DeleteOneWord	15.07.22	Deletes current word, but no punctuation (was called DeleteWord)
CommentAddFromFile	15.07.22	Adds a comment from a file of ready-made comments
MultiSwitch	13.07.22	Scripted word/phrase switching
LoadFilesInList	29.06.22	Loads a series of files in a Word file list
CopyFullFilename	29.06.22	Loads full filename of current document into clipboard
MacroFetchUpdate	26.06.22	Updates an existing macro, preserving the keystroke
NumberToTextUK	24.06.22	Converts next number into text
NumberToText	24.06.22	Converts next number into text
SpellingSuggest	22.06.22	Checks/corrects spellings or adds/subtracts FRedit suggested change
AcceptTrackedFormatChanges	21.06.22	Accepts just the formatting track changes
Confusables	17.06.22	Highlights/colours list of words in confusables file
PunctuationToNonBreakingEnDash	14.06.22	Changes next hyphen/em/en dash to a non-breaking em/en dash
PunctuationToNonBreakingEmDash	14.06.22	Changes next hyphen/em/en dash to a non-breaking em dash
IZtoIS	14.06.22	Corrects text to give -is-, -ys- spellings
IStoIZ	14.06.22	Corrects text to give -iz-, -yz- spellings
CommentJumpInOut	13.06.22	Jumps in and out of comment text
CapperMin	10.06.22	Lowercases initial letter of capitalised words (sentence case)
CapperMax	10.06.22	Uppercases initial letter of all major words (title case)
SwapWords	07.06.22	Swaps adjacent words
ParenthesesAdd	06.06.22	Puts parentheses round the current word or phrase
InitialSwapperReverse	06.06.22	Swaps initials and surname (Beverley, P.E. -> P.E. Beverley)
InitialSwapper	06.06.22	Swaps initials and surname (P.E. Beverley -> Beverley, P.E.)
AddQuotesSingle	06.06.22	Puts single quotes round the current word or phrase
AddQuotesDouble	06.06.22	Adds quotes round a word or phrase
PunctuationSwapInDialogue	03.06.22	Swaps the next punctuation mark
PunctuationSwap	03.06.22	Swaps the next punctuation mark
Italiciser	03.06.22	Toggles italic for next character or selected text
Ampersand	03.06.22	Changes next ampersand to 'and'
FindSamePlaceBack	02.06.22	Finds the same place in another file (backwards)
FindSamePlace	02.06.22	Finds the same place in another file
NumberToTextUK2	01.06.22	Convert next number into text
NumberToText2	01.06.22	Convert next number into text
MultiSearchLoader	31.05.22	Loads text segments into MultiSearch
TeAkaFetch	29.05.22	Launches selected text on the Maori dictionary Te Aka
MultiSearchUp	28.05.22	Searches for a set of words in proximity
MultiSearch	28.05.22	Searches for a set of words in proximity
CitationAlyse	26.05.22	Checks citations against references
CopyTextSimple	23.05.22	Creates a text-only copy, with some features preserved
SuperscriptSwitch	17.05.22	Toggle subscript
SubscriptSwitch	17.05.22	Toggle superscript and subscript
MacroLauncher	12.05.22	Offers a list of macros to launch (was called "MacroMenu")
RAEfetch	10.05.22	Launches selected text on Real Academia Española
DTMEfetch	10.05.22	Launches selected text on
FootnoteEndNoteFiddle	06.05.22	Tidies up start/end of each footnote or endnote
CaseThisWord	06.05.22	Changes initial case of current word and jumps to next word
Boldiser	03.05.22	Toggles bold for next character or selected text
GoogleFetch	02.05.22	Launches selected text on Google
CountRemainder	29.04.22	Counts words below the cursor
HyphenSpaceWordCount	25.04.22	Counts hyphenated word forms
CaseNextWord	20.04.22	Changes case of initial letter of next word or selection

CommaAdd	16.04.22	Adds a comma after the current word
ChapterChopper	16.04.22	Chops a book file into a set of chapter files
SpellAlyse	15.04.22	Complete spellchecking system
HighlightMinus	15.04.22	Removes or adds highlight in a choice of colours
ChronologyChecker	15.04.22	Copies paragraphs containing date references into a new file
URLlinker	14.04.22	Finds all URLs in the text and links them
DayDateAlyse	10.04.22	Lists words out of a proper noun frequency list
HyphenAlyse	04.04.22	Creates a frequency list of all possible hyphenations
ProperNounAlyse	02.04.22	Analyses similar proper nouns
DictionaryFetchByLanguage	21.03.22	Checks the current word in a language-related dictionary
ShortTitleUnderline	17.03.22	Underlines the current author name(s)
ShortTitleAlyse	17.03.22	Analyses Short titles to check references against citations
ReferenceNameDateMover	16.03.22	Moves forename/initials to before surname or move year to end
SpellingErrorLister	02.03.22	Generates an alphabetic list all the spelling 'errors'
StrikeThroughAllURLs	24.02.22	Strikes through all URLs to protect them from changes
VerbChanger	19.02.22	Changes "(to) splodge" <-> "(of/for) splodging"
TrackAcceptMoveOn	19.02.22	Accepts change and moves to the next
YearMoveToEnd	16.02.22	Moves the year to end of reference
FindInProximity	12.02.22	Finds certain words within a given word range
DocAlyse	08.02.22	Analyses various aspects of a document
TypeThat	05.02.22	Types 'that' after the current word.
SelectSentence	05.02.22	Selects the current sentence + next sentence right
ProperNounToFredit	04.02.22	Picks up alternative spellings in a PN query list for a Fredit list
HyphenationToFredit	04.02.22	Creates Fredit items from HyphenAlyse or PropernounAlyse files
FindColouredTextUp	03.02.22	Finds coloured text upwards
FreditListProcess	02.02.22	Tidies up a spelling Fredit list from cursor downwards
ClearHighlightAndColour	28.01.22	Removes all highlighting, colouration and (optionally) underlining
HighlightFindUp	27.01.22	Selects the previous piece of highlighted text
HighlightFindDown	27.01.22	Selects the next piece of highlighted text
SerialCommaAlyse	25.01.22	Highlights things that might be lists with serial commas (or not)
NumberIncrement	25.01.22	Adds one to the following number (or increases the letter)
NumberDecrement	25.01.22	Subtracts one from the following number (or decreases the letter)
ItaliciseVariable	25.01.22	Runs along, finds sets of alpha chars and italicises them
WordPairAlyse	20.01.22	Creates a file of all the adjacent word pairs
MegAlyse	20.01.22	Launches a selected series of analysis macros
CommentCollectTabulated	14.01.22	Collects comments into a table
ParagraphLineLengthHighlighter	11.01.22	Highlights any paragraphs longer than a number of lines
ParagraphShrink	07.01.22	Shrinks the current paragraph (for use with CitationAlyse)
InstantFindUp	07.01.22	Finds selected text upwards
InstantFindDown	07.01.22	Finds selected text downwards
ParagraphEndChecker	06.01.22	Highlights the end of all possibly punctuation-less paragraphs
Fredit	06.01.22	Scripted find and replace
MultiFileText	05.01.22	Collects text plus simple formatting from multiple files
MacroRunNoTC	01.01.22	Runs an analysis on track-accepted text
RepeatedWordsInParagraphs	30.12.21	Highlights any words duplicated within given paragraphs
CapitAlyse	22.12.21	Analyses capitalised words
LanguageSetUS	06.12.21	Sets language as US English
LanguageSetUK	06.12.21	Sets language as UK English

GoogleScholarFetch	06.12.21	Launches selected text on Google Scholar
AcronymAlyse	27.11.21	Lists all acronyms, with frequency
PunctuationToMinus	21.11.21	Finds punctuation and changes to minus sign
MacroFetchKeystrokeReadMac	20.11.21	Reads and restores a macro's keystroke while upgrading
MacroFetchKeystrokeRead	20.11.21	Reads and restores a macro's keystroke while upgrading
PunctuationToThinSpace	19.11.21	Changes the next item to a thin space
PunctuationToSpace	19.11.21	Changes the next punctuation item to a space
PunctuationToSingleQuote	19.11.21	Changes next quote mark to single curly
PunctuationToSingleOpenGuillemet	19.11.21	Changes next quote mark to single open guillemet
PunctuationToSingleCloseGuillemet	19.11.21	Changes next quote mark to single close guillemet
PunctuationToPrime	19.11.21	Changes next quote mark to single prime
PunctuationToMultiplySign	19.11.21	Changes next x or X to multiplication sign
PunctuationToMultiplySign	19.11.21	Changes next x or X to multiplication sign
PunctuationToHyphen	19.11.21	Changes the word break punctuation to a hyphen
PunctuationToHardSpace	19.11.21	Changes the next item to a hard space
PunctuationToFullPoint	19.11.21	Changes the next punctuation item to a full point
PunctuationToEnDash	19.11.21	Changes next hyphen/em/en dash to an en dash
PunctuationToEmDash	19.11.21	Changes next hyphen/em/en dash to an em dash
PunctuationToDoubleQuote	19.11.21	Changes next quote mark to double curly
PunctuationToDoublePrime	19.11.21	Changes next quote mark to double prime
PunctuationToDoubleOpenGuillemet	19.11.21	Changes next quote mark to double open guillemet
PunctuationToDoubleCloseGuillemet	19.11.21	Changes next quote mark to double close guillemet
PunctuationToComma	19.11.21	Changes the next punctuation item to a comma
GoogleFetchUS	18.11.21	Launches selected text on Google.Com
GoogleFetchQuotesUS	18.11.21	Launches selected text - with quotes - on Google.Com
GoogleFetchQuotesCA	18.11.21	Launches selected text - with quotes - on Google Canada
GoogleFetchQuotes	18.11.21	Launches selected text - with quotes - on Google
GoogleFetchCA	18.11.21	Launches selected text on Google Canada
CommentPrevious	14.11.21	Goes to previous comment
CommentNext	13.11.21	Goes to next comment
OpenmySize	02.11.21	Opens the window to a particular size, position and magnification
CommentAdder	02.11.21	Adds a comment off a menu
CaseNextChar	02.11.21	Changes case of the next character/selection
CompareNow	26.10.21	Creates an instant comparison of two open Word files
ItalicBinomial	25.10.21	Italicises binomials
MultiFileAcceptTrackChanges	21.10.21	Accept track changes in multiple files
MerriamFetch2	21.10.21	Launches selected text on Merriam-Webster unabridged
WikiFetchDE	18.10.21	Launches selected text on Wikipedia
WikiFetch	18.10.21	Launches selected text on Wikipedia
OneLookFetch	18.10.21	Launches selected text to OneLook.com
NgramFetch	18.10.21	Launches selected text on Google Ngram
GoogleFetchQuotesDE	18.10.21	Launches selected text - with quotes - on Google
GoogleFetchDE	18.10.21	Launches selected text on Google
TextToNumber	15.10.21	Finds numbers expressed in words + converts to figures
SwapPreviousCharacters	06.10.21	Switches the two chars in front of the caret
SwapCharacters	06.10.21	Switches characters either side of caret
PunctuationItalicOff	06.10.21	Un-italicises all commas not followed by italic text
PunctuationBoldOff	06.10.21	Un-bolds all commas, etc. not followed by bold text
TitlesReveal	06.08.21	Switches the next light grey font colour to full colour
CommentComposeMenu	06.08.21	Adds a comment off a menu
CommentCompose	06.08.21	Allows you to create a new (modern) comment
CommentsModernDelete	02.08.21	Deletes current comment or all comments
CommentsModernCollect	02.08.21	Extracts modern comments with format and colouring
FullPoint	23.07.21	Makes adjacent words into sentence end

GoogleTranslate	11.07.21	Launches selected text to GoogleTranslate
MultiFileFRedit	10.07.21	Multi-file version of FRedit
ParticipleChanger	23.06.21	Toggles between past to present participles
FontColourSame	18.06.21	Colours all occurrences of this text in this colour
DictionaryMultipleFetch	17.06.21	Launches selected text to dictionary.com and other dictionaries
UKUScount	15.06.21	Counts relative spellings between UK and US English
SmallCapWord	15.06.21	Makes the current word smallcaps
MoveToStart	15.06.21	Move the selected text to the beginning of the sentence
However	15.06.21	Starts a sentence with 'However', and removes the later "however"
EmDashUnspaced	14.06.21	Removes punctuation, adds unspaced em dash and lowercases next char
ScareQuoteAdd	29.05.21	Add single quotes round a word
JoinTwoWords	29.05.21	Joins two words
SplitScreen	28.05.21	Splits the screen
QQUpdate	28.05.21	Renumbers QQ comments
QQSwitch	28.05.21	Jumps between QQ comment and comment marker
QQAddSimple	28.05.21	Adds a QQ comment, with various features
QQAdd	28.05.21	Adds a QQ comment, with various features
CountPhrase	27.05.21	Counts this word or phrase
PhraseCount	19.05.21	Counts each of a list of words/phrases
DisplayQuote	17.05.21	Finds or displays a long quote
InstantFindDownWild	11.05.21	Finds selected text downwards, with wildcards set
CommentsPane	11.05.21	Opens and closes the Comments pane
CopyAllEditedSentences	20.04.21	Copies all sentences that have tracked edits in them
SaveAsWithIndex	13.04.21	Saves the current file, adding a postfix
PrepareToReplaceWithMarker	10.04.21	Copy text into the F&R box from top leaving marker
PrepareToReplaceFromTop	10.04.21	Copy text into the F&R box from top
PrepareToReplaceDownTCoff	10.04.21	Copy text into the F&R box
PrepareToReplaceDown	10.04.21	Copies selected text into the F&R box
CitationListCheckerChecker	09.04.21	Rechecks citations against references, esp. Chicago-type
FontLister	07.04.21	Lists all font names in selected text or whole file
NormaliseText	03.04.21	Sets Normal style and removes (some) formatting
CountSectionWords	03.04.21	Counts words in sections of text between headings
CountChapterPages	03.04.21	Counts words in sections of text between headings
SpellingErrorHighlighter	24.03.21	Highlights all spelling errors
HighlightPlus	24.03.21	Adds highlight in a choice of colours
ColourPlus	24.03.21	Adds font colour in a choice of colours
MatchSingleQuotes	18.03.21	Check whether single quotes match up
ColourMinus	16.03.21	Removes or adds font colour in a choice of colours
ParenthesesEtcPairDelete	09.03.21	Removes the following pair of parentheses or quotes, etc.
FullNameAlyse	24.02.21	Creates a frequency list of all full names
MacroFetch	21.02.21	Fetches the macro named in the clipboard or at the cursor
FReditListChecker	18.02.21	Checks for possible anomalies in a FRedit list
FullPointInDialogue	17.02.21	Make adjacent words into sentence end
CommaInDialogue	17.02.21	Give adjacent words a comma link
MacroNameToLink	11.02.21	Makes URL for macro name in clipboard or at cursor and puts in clipboard
DeleteCommentsSelectively	10.02.21	Accepts track changes of specific author/editor
AcceptTrackingSelectively	10.02.21	Accepts track changes of specific author/editor
WordSwitch	06.02.21	Scripted single-word switching
IZIScount	06.02.21	Counts IS/IZ spellings
FReditListMenu	06.02.21	Provides a menu to run different FRedit lists
DictaFRedit	06.02.21	Adds features to Word 365 Dictate, and cleans up it errors

CharacterSwitch	06.02.21	Scripted character switching
NotesEmbed	04.02.21	Embed footnotes or endnotes
SwapPunctuation	02.02.21	Swaps the punctuation at the end of some words
CharToVariousAccents	01.02.21	Adds various accents
CharToUmlaut	01.02.21	Adds various accents
CharToGrave	01.02.21	Adds a grave acute accent to the next vowel
CharToCircumflex	01.02.21	Adds a circumflex to the next vowel
CharToAcute	01.02.21	Adds an acute accent to the next vowel
FReditHeadingsOnly	30.01.21	Run FRedit, but only on similarly formatted text
TrackChangeDisplaySwitch	26.01.21	Switches track change displays: Simple <=> AllMarkup
URLink	23.01.21	Makes the URL/email at the cursor a clickable link
MacroSelect	20.01.21	Selects the current macro text
WordPairPunctuate	16.01.21	Makes word pair hyphenated or single word
WordGraph	16.01.21	Gives a visual indication of the occurrences of a word or phrase
SortListInText	16.01.21	Sorts items in a list in the text alphabetically.
SearchThenMultiSwitch	16.01.21	Finds one of your words, then calls MultiSwitch to change it
SearchThenChange	16.01.21	Finds one of the words from a list, then changes to its alternate
PunctuationOffRight	16.01.21	Removes the punctuation off a word end (and quote off start)
PDFspellIgnoreProperNouns	16.01.21	Underline all spelling errors except proper nouns
PDFspellAll	16.01.21	Underline all spelling errors
NumberToFigure	16.01.21	Converts the next number to a figure
MacroUpdater	16.01.21	Updates to the current macro text, preserving the keystroke
ListOfTextParas	16.01.21	Lists all paragraphs (pure text) starting with certain text
ListOfParas	16.01.21	Lists all paragraphs (formatted text) starting with certain text
ListOfList	16.01.21	Lists all items in a list that contain a particular text
ListOfFound	16.01.21	Lists all occurrences of selected text
IndexChecker	16.01.21	Lists all pages on which this word(s) occur(s)
HighlightSame	16.01.21	Highlight all occurrences of this text in this colour
HighlightOffWord	16.01.21	Remove highlight from all occurrences of this word
GoogleMapFetch	16.01.21	Launches selected text to Google Maps
CopyToList	16.01.21	Copies selected text into a list file
CommentListNumbered	16.01.21	List all comments in file with index numbers
CommentAddMenu	16.01.21	Adds a comment off a menu
CitationListTrimmer	16.01.21	Tidies up 'funny' items in a citation list.
CitationListSortByYear	16.01.21	Sorts items in a citation list in the text by date.
AuthorInitialCapitalReferences	16.01.21	Changes author surnames in all capitals to initial capital
AuthorCaseChange	16.01.21	Lowercases author surnames (e.g. SMITH, J. to Smith, J.) in references list
AAAnalyse	16.01.21	Checks a's and an's for agreement with the following word
TypeA	15.01.21	Types 'a' or 'A', (or 'an' or 'An') between two words
SmartFinder	15.01.21	Finds this text/note/page/etc, etc immediately.
URLlauncher	14.01.21	Launches successive URLs from the text
SwapThreeWords	14.01.21	Swaps three adjacent words (A and B to B and A)
SpellWordChange	14.01.21	Accepts Word's spelling suggestion for current word
SelectWord	14.01.21	Selects current word, and then those before it
Pluralise	14.01.21	Tries to make the current word plural
FinalCharDelete	14.01.21	Removes the final character or punct off a word
DeleteRestOfSentence	14.01.21	Deletes from end of current word to the end of the sentence
AddTextRoundText	14.01.21	Adds text at either end of a word or phrase (can delete punctuation)
TableStripper	13.01.21	Strips out all tables into a separate file
NotesReEmbedByNumber	13.01.21	Re-embed footnotes or endnotes by number
InstantJumpUp	13.01.21	Find selected text upwards

CommentAdd	13.01.21	Adds a comment
NavPaneWidth	12.01.21	Widens the navigation pane
NavPaneCustomize	12.01.21	Opens the navigation pane where and how you want
ListAllStyles	12.01.21	Creates a list of all styles name
InstantJumpDown	12.01.21	Find selected text downwards
GoogleSSFatch	12.01.21	Uses Google to search a single specific site
FindReplaceGo	12.01.21	Finds, replaces and moves to the next match
FindClipTop	12.01.21	Jumps to the top, and finds whatever is in the clipboard
FindClip	12.01.21	Find whatever is in the clipboard
FindFwdCase	09.01.21	Next case-sensitive find forwards
FindFwd	09.01.21	Finds next match forwards, case insensitively
FindBackCase	09.01.21	Next case-sensitive find backwards
FindBack	09.01.21	Next find backwards
HighlightAllItalic	06.01.21	Highlights all text in italic
CommentAddSimple	18.12.20	Adds a new comment with a standard text item added
RenumberNotes	02.12.20	Renumbers all note numbers in selected text
SpecialWordSpellAlyse	01.12.20	Does a ProperNounAlyse of all long 'spelling error' words
RenumberSuperscript	28.11.20	Renumbers all superscript numbers
MultiFileWord	28.11.20	Multiple Word file concatenation
UnifyFormatForwards	27.11.20	Make end of para (or selection) same format as the start
UnifyFormatBackwards	27.11.20	Makes start of para (or selection) same format as the end
QuotesToGuillemets	26.11.20	Changes all curly double quotes to guillemets
TitlesShowHide	25.11.20	Toggles between light grey font colour text and full colour
SpecialSortsLister	25.11.20	Collect all special sorts in a file
CenturyAlyse	25.11.20	Analyses how centuries are formatted in a document
NotesInlineToEmbed	24.11.20	Copies in-line notes into embedded notes
NotesCopyToInline	24.11.20	Copies notes into inline notes in brackets
DIYFormatHeadwords	24.11.20	Adds a character style to the first word of every para in a given style
DIYFindAshortMacro	24.11.20	Finds a macro shorter than a certain length
DIYColourLongWords	24.11.20	Adds a highlight to sentences longer than 40 words
DIYColourLongSentences	24.11.20	Adds a highlight to sentences longer than 40 words
FormatHeadwords	22.11.20	Adds a character style to the first word of every para in a given style
BLcatalogueFetch	21.11.20	Launches selected text on Google
WhatsAppTextFormat	11.11.20	Converts text from Word to WhatsApp formatting
ListAlyse	11.11.20	Makes a list of all the 'list' items - then you can analyse them!
CopyTextVerySimple	28.10.20	Creates a text-only copy, with no features preserved
FReditSelect	21.10.20	Runs FRedit, but only on multiply selected text
EquationsHighlightAll	10.10.20	Highlights all maths items
PDFpageNumberer	30.09.20	Adds page numbers to each line of a PDF text
MerriamLegalFetch	13.09.20	Launches selected text to Merriam-Webster legal website
LawDictionaryFetch	13.09.20	Launches selected text to Dictionary.Law website
EtAlCitationElision	09.09.20	Crops multi-author citation to single name + 'et al'
TagsShowHide	08.09.20	Changes tags into hidden text and then reveals them again
CitationListChecker	08.09.20	Checks citations against references list
FirstLineIndentToTab	07.09.20	Changes all first-line indents to a tab
ReverseList	05.09.20	Reverses the order of items in a list
AuthorNameReinsertParens	05.09.20	Replaces the dash-and-comma for the author's name (parenthesis)
AuthorNameReinsert	05.09.20	Replaces the dash-and-comma for the author's name
SpellingErrorListerBilingual	03.09.20	Generates an alphabetic list all the bilingual spelling 'errors'
TitleInQuotesCapperGlobal	25.08.20	Uppercases the initial letter of all major words (title case)
TitleInQuotesCapper	25.08.20	Uppercases the initial letter of all major words (title case)

MultiFileShowHiddenText	25.08.20	Unhides hidden text in multiple files
BackgroundColourOnOff	25.08.20	Switches background colour on/off
EtAlElision	24.08.20	Crops multi-authors to a given number before 'et al'
JumpNextAppliedStyle	11.08.20	Jumps to the next applied style
WhatChar	10.08.20	Show ASCII and unicode and character names
WikiFetchNL	08.08.20	Launches selected text on WikipediaNL
ThesaurusFetchNL	08.08.20	Launch selected text to https://synoniemen.net
ThesaurusFetchDE	08.08.20	Launch selected text to openthesaurus.de
ThesaurusFetch	08.08.20	Launch selected text to thesaurus.com
PubMedFetch	08.08.20	Launches selected text to PubMed
OUPFetch	08.08.20	Launches selected text to OUP
MerriamFetch	08.08.20	Launches selected text to Merriam
MacquarieFetch	08.08.20	Launches selected text to the Macquarie dictionary
GroeneBoekjeFetch	08.08.20	Launches selected text to https://woordenlijst.org
GoogleFetchQuotesNL	08.08.20	Launches selected text - with quotes - on GoogleNL
GoogleFetchNL	08.08.20	Launches selected text on GoogleNL
FileOpener	08.08.20	Menu system to select and load a file(s)
DictionaryFetchNL	08.08.20	Launches selected text to https://www.vandale.nl
DictionaryFetchDE	08.08.20	Launches selected text to duden.de
DictionaryFetch	08.08.20	Launches selected text to dictionary.com
Chirimbolos	04.08.20	Chirimbolos - WhatChar in SPANISH by Marcela Ronaina
Dash	20.07.20	Removes punctuation, adds dash and lowercases next char
ItalicQuoteToggle	13.07.20	Toggles between italic and single or double quote
FigTableBoxLister	09.07.20	Finds figure/table/box elements and their citations
AddKeys	08.07.20	Adds keybindings to macros
BibSortWithDittos	07.07.20	Sorts bibliographic list including ditto marks
MacroMenuForMac	04.07.20	Offers a list of macros to launch
CitationLister	04.07.20	Create a list of all citations
UnlinkCitationsAndRefs	29.06.20	Unlinks reference citations (ignoring equations)
FindFwdAll	27.06.20	Moves forward to next match: text > notes > comments
FontColourDocumentSplit	25.06.20	Splits a document into coloured and not coloured
NumberParasTagged	18.06.20	Adds numbering to first-level headings tagged with <a>
CopyHighlightedTextSentences	09.06.20	Copies sentences containing highlighted text into a new file
ChangeNext	30.05.20	Finds next change (but not comment)
SpellingShowToggle	25.05.20	Switches visible spelling error indication on and off
QuotationMarker	21.05.20	Marks all quotes + displayed text
SpracheDE	20.05.20	Sets language as German
SpracheCH	20.05.20	Sets language as SwissGerman
TrackDateTimeList	13.05.20	Lists the date and time of all track changes
LoadTheseFiles	13.05.20	Loads all the files listed in a file list
FixedFontSwitch	13.05.20	Switches font colour red -> blue -> black ->
FixedFontRed	13.05.20	Sets font to an 'almost' red font colour
FixedFontBlue	13.05.20	Sets font to an 'almost' blue font colour
FixedFontBlack	13.05.20	Sets font to an 'almost' black font colour
CommentsDeleteSelectively	13.05.20	Deletes all comments that have a specific tag
BookmarkTempFind	29.04.20	Go to temporary marker
TrackChangeCounter	22.04.20	Counts all the edits in a document
ConcordanceMaker	17.04.20	Creates a concordance list
FrequencyWordLength	15.04.20	Creates a histogram of word lengths
FrequencySentenceLength	15.04.20	Creates a histogram of sentence length
FrequencyParagraphLength	15.04.20	Creates a histogram of paragraph length
ClipPasteTextOnly	15.04.20	Collects and pastes an item from a clip list
ClipPaste	15.04.20	Collects and pastes an item from a clip list
VancouverCitationChecker	11.04.20	Finds all citations and creates a list
BackgroundColourOff	11.04.20	Remove background colour

BackgroundColourAllOff	11.04.20	Removes all background colours
ZifferWort	06.04.20	Converts the next number (1 to 12) into German text
CountDownVisible	03.04.20	Shows a statusbar and Big Text countdown to zero
LongParagraphHighlighter	25.03.20	Highlights all paragraphs more than a certain length
HighlightNonRomanPunctuation	25.03.20	Highlights non-roman punctuation
ClipStore	20.03.20	Copies the selected text into a clip list
ClipPaste_1	20.03.20	Collects and pastes a numbered item from a clip list
CommentChangeScope	04.03.20	Reduces or extends the scope of a comment
ListUppercaseNoPunct	29.02.20	Uppercases the initial character + removes end punctuation
URLunlinker	28.02.20	Unlinks all the URLs in the selection or the whole file
URLshrinker	28.02.20	Reduces the extent of a URL link to just the selected text
RevisionsHighlight	19.02.20	Highlights all the edits in a text
TitleHeadingCapper	18.02.20	Uppercase initial letter of all major words (title case)
HeadingSentenceCase	18.02.20	Sentence cases this selection or paragraph (but not acronyms)
CurlyQuotesToggle	18.02.20	Switches on auto curly quotes on and off
MultiFileTextForMac	17.02.20	Collects text plus simple formatting from multiple files
MultiFileTextForMac	17.02.20	Collects text plus simple formatting from multiple files
TrackSimplifier	13.02.20	Accepts certain types of tracked features
RulersShow	10.02.20	Switches Word's ruler on and off
OxfordCommaSelectiveDelete	07.02.20	Moves to next Oxford comma and/or deletes current comma first
AccentAlyse	06.02.20	Analyses all the words that contain an accent
AccentedWordCollector	03.02.20	Creates a list of all the accented words in a text
TaggedTextToSmallCaps	01.02.20	Finds tagged text, lowercases it and changes to small caps
TitleInSquaresCapperFR	22.01.20	Uppercase initial letter of all major words (title case)
NumberToTextMultiSwitch	18.01.20	Finds a number, then calls MultiSwitch to change it
TrackChangeDisplaySelect	11.12.19	Cycles through track change display levels
PunctuationToSingleQuoteFR	11.12.19	Changes next quote mark to French single curly
PunctuationToSingleQuoteDE	11.12.19	Changes next quote mark to German single curly
PunctuationToDoubleQuoteFR	11.12.19	Changes next quote mark to French double curly
PunctuationToDoubleQuoteDE	11.12.19	Changes next quote mark to German double curly
ListRenumber	30.11.19	Makes all following numbered items in a list consecutive
ForumTextFormat	29.11.19	Converts text from Word to Forum and vice versa
SingleQuotesDoubleTopical	19.11.19	Changes single quotes around current text to doubles
MacroVersionChecker	18.11.19	Checks Paul Beverley - Version dates of all your macros against MacroList
MacrosAllRestore	18.11.19	Adds keybindings from a list of macro names
MacrosAllBackup	18.11.19	Creates a list of all macro keystrokes
CompareTexts	14.11.19	Compares copied text (i.e. clipboard contents) with selected text
SerialCommaCounter	12.11.19	Counts serial (or not) commas in lists
SortIt	02.11.19	Sort the selected text
SuperscriptNumberFormatter	28.10.19	Corrects spaces + punctuation on superscripted numbers
PDFHyphenRemover	28.10.19	Finds all end-of-line hyphens, joining back to the next word
PDFHyphenChecker	25.10.19	Checks the line-end hyphenation of a converted PDF
Enigmatizer	25.10.19	Obfuscates/anonymises the current file
EmailLinker	18.10.19	Finds all email addresses in the text and links them
CommentsDeleteAllNotTagged	17.10.19	Deletes all comments *not* starting with a specific tag
CommentsAddIndexOnInitials	17.10.19	Adds (and removes) serial numbers to initials in comments
RemoveNumbersFromHeadings	15.10.19	Removes automatic numbering from headings
DoubleQuotesSingleTopical	14.10.19	Changes double quotes around current text to singles
FormatNumbers	10.10.19	Formats number at cursor or numbers within a selection
BordersPrevious	10.10.19	Finds previous paragraph with borders
BordersNext	10.10.19	Finds next paragraph with borders

AutoTagger	30.09.19	Tag/code automatically
SentenceAlyse	28.09.19	Analyse the lengths of sentences
DocAlyseForMac	28.09.19	Analyses various aspects of a document
VerbChangerNLglobal	13.09.19	Changes Dutch verbs through the whole file
VerbChangerNL	13.09.19	Changes Dutch verbs in current sentence
SelectPreviousHighlight	13.09.19	Selects the previous piece of highlighted text
SelectNextHighlight	13.09.19	Selects the next piece of highlighted text
SearchTheseWords	13.09.19	Finds the next occurrence of any of a list of words
MendeleyPunctuationCorrection	13.09.19	Moves punctuation marks to before the note indicator
CharToMacron	13.09.19	Adds a macron accent to the next vowel
CaptionsListAll	13.09.19	Lists all paragraphs with bold Figure, Table, Box
CapitaliseUndoubler	13.09.19	Finds doubled capital letters and corrects them
BoldFirstOccurrence	13.09.19	Emboldens the first occurrence of words in a list
RepeatedWordsInSentences	12.09.19	Highlights any words duplicated within a given sentence
StyleEffectDetector	10.09.19	Reports the style and effects applied to the text
AlphaHeadersOnIndex	10.09.19	Adds alpha headers to an index
FormatAlyse	07.09.19	Highlights various formatting features
FieldAlyse	06.09.19	Counts all fields of different types
FReditSame	21.08.19	Create FRedit item with ^&
LinesToParagraphs	16.08.19	Converts lots of individual lines of text into paragraphs
TablePrevious	14.08.19	Steps through tables, one by one
TableNext	14.08.19	Steps through tables, one by one
TableBordersToggle	14.08.19	Switches table borders and rules on and off
StyleDetector	14.08.19	Displays or speaks the current style name
FontColourReader	14.08.19	Reads style font colour + any applied colour
CommentInitialReplaceAll	14.08.19	Changes all comment initials
CommentInitialFandR	14.08.19	Finds and replaces comment initials
DuplicatesRemove	10.07.19	Remove duplicate items from a list
TrackOnOffVisible	19.06.19	Switches tracking on/off with visible background
Semicolon	19.06.19	Make adjacent words into semicolon separated
QuestionMark	19.06.19	Makes adjacent words into sentence end
Period	19.06.19	Makes adjacent words into sentence end
ExclamationMark	19.06.19	Make adjacent words into sentence end
Comma	19.06.19	Make adjacent words into comma separated
Colon	19.06.19	Make adjacent words into colon separated
ListAllHeadings	15.06.19	Creates a list of all headings by style name
CommentCopier	15.06.19	Creates an author query list
AuthorForenamesInitialiser	15.06.19	Changes author forenames to initials
CommentNumbering	20.05.19	Add or remove fixed comment numbers
SerialNotCommaHighlight	18.05.19	Highlights or underlines text that appears not to have a serial comma
SerialCommaHighlight	18.05.19	Highlight or underline text that appears to have a serial comma
FieldsUnlink	09.05.19	Selective field removal
DeleteAllSpellingErrors	08.05.19	Deletes all spelling errors
HighlightWithTrackChange	03.04.19	Use allcaps, smallcaps, underline for tracking highlighting
TrackOnOffVisibleMac	07.03.19	Switches tracking on/off with visible background
ListofHeadings	06.12.18	Create a list of all headings
VerseListFormat	09.11.18	Formats list(s) or poem verse(s) with manual linebreaks
DuplicateSentenceCount	27.10.18	Counts frequency of any duplicated sentences
MiniFRedit	15.10.18	Adds attributes to certain words
JumpScroll	08.10.18	Scrolls current line to the top of the page
ItalicisePhrase	04.10.18	Selects text up to next punctuation mark and makes it italic
FindInContextLoad	04.10.18	Loads name and date ready for FindInContext macro
HighlightNotThisSize	03.10.18	Highlights all text NOT the same size as the current text

UnderlineStyle	01.10.18	Changes the underline style of underlined text
TableEdit	01.10.18	Edits items in the cells of some or all tables
SurnameSorter	01.10.18	Sorts a name list on surname, but allowing for postfixes
TypeTimesX	25.09.18	Types '(x2)' then moves back to the number, ready to increase it
MoveToNextQuote	25.09.18	Moves cursor to the next quote pair
DeleteSentenceAfterQuote	25.09.18	Deletes rest of sentence after current quote
ChronoColourOff	25.09.18	Removes one specific colour of highlighting
QuoteCopier	24.09.18	Copies text from one quote pair to the next
NumberSequenceCheckerSimple	24.09.18	Checks consecutivity of numbering
NumberSequenceCheckerDecimal	24.09.18	Checks consecutivity of numbering containing decimal point
MultifileTrackChangeReport	24.09.18	Creates a file of sentences containing TCs in multiple files
ListOfTaggedHeadings	21.09.18	Lists all tagged headings, <A>, , etc
HighlightCertainCharacters	21.09.18	Highlights certain characters with attributes
FReditListCreate	20.09.18	Adds text to list items and applies formatting
SortAndRemoveDups	19.09.18	Sort the selected text
ItalicWordList	19.09.18	Creates a list of all words in italic
FileLister	19.09.18	Lists all files in a folder
FandRdespiteTCsSelective	19.09.18	Does current F&R despite track changes (selective)
FandRdespiteTCsGlobal	19.09.18	Does current F&R despite track changes (global)
DeleteAllFootnotes	19.09.18	Delete all footnotes
DeleteAllEndnotes	19.09.18	Delete all endnotes
CommaAddPrevious	19.09.18	Adds a comma before the current word
ContentsListerByTag	17.09.18	Creates a contents list from tags, <A>, , etc.
AcronymLister	17.09.18	List all acronyms
FootnoteAdd	27.08.18	Creates a new footnote (in a given style and/or sq. brackets)
FootnoteAdd	27.08.18	Creates a new footnote (in a given style)
AlphabeticOrderByLine	14.08.18	Finds any suspicious non-alphabetism
ReferencesCollator	11.07.18	Finds reference lists, and colours, collates and sorts them
VancouverAllCited	26.05.18	Creates a list of all cited Vancouver references
CommentBubblesToBrackets	26.05.18	Copies comments into brackets in running text
CommentBracketsToBubbles	26.05.18	Copies text in square brackets and into comment bubbles
BordersAllOff	26.05.18	Removes border attributes from some or all text
BordersAddToText	26.05.18	Changes underlined+highlighted text to coloured borders
CatchPhrase	18.05.18	Searches for repeated phrases/sentences
TweetCheck	10.05.18	Highlights paragraphs with too many characters
ParaWordLengthHighlighter	08.05.18	Highlights all paragraphs of a range of word lengths
ProperToPronoun	02.05.18	Changes the next proper noun to a personal pronoun
DoubleSpaceAfterSentence	28.02.18	Ensures that every sentence has TWO spaces after it
WordsPhrasesInContext	19.02.18	Copies paragraphs containing specific names into a new file
MacrosAllRestoreMac	03.02.18	Adds keybindings from a list of macro names
ShowFormattingMenu	01.02.18	Displays (or not) various formatting markers, and the highlighting
CommentContextCopier	20.01.18	Copies paragraphs containing comments into a new file
FReditCopyPlus	18.01.18	Copy word to make FRedit script item + highlight + case insensitive
FootnoteFiddleStartSpace	06.01.18	Removes initial space from each footnote
CopyHighlightedTextParagraphs	06.01.18	Copies paragraphs containing highlighted text into a new file
ColonUnbold	06.01.18	Romanises bold colons that are followed by roman text
CodeSegmentProtect	06.01.18	Applies strike-through to computer code sections
ClipboardLoader	06.01.18	Puts text in clipboard from a menu
RomanPunctuationHighlight	04.01.18	Finds roman punctuation that follows italic text
MultiFileReferenceCollator	13.12.17	Collects all references (or foot/endnotes) from multiple files
MultiFilePDF	13.12.17	Save a folder full of files as PDFs
MultiFileCount	13.12.17	Count words in a group of files

MultiFileCopier	13.12.17	Save a duplicate set of files with a postfix
MultiFileComment	13.12.17	List all comments in a set of files
EndnoteAdd	30.11.17	Creates a new endnote (in a given style and/or sq. brackets)
SuperSubConvert	20.11.17	Changes weird super/subscript format to proper ones
CommentsPaneOLD	08.11.17	Open the comments pane
UnHighlightAndColour	04.11.17	Removes all highlight/coloration of the current colour
TagNI	04.11.17	Adds an <ni> tag after every heading
TableSpaceBeforeHeading	04.11.17	Adds a blank line where a numbered heading follows a table
SelectiveUnColourUnHighlight	04.11.17	Removes highlighting + removes coloration, but only on non-program text
QuoteMarkEmbedder	04.11.17	Changes double quotes inside double quotes to singles
PunctuationOffNearHere	03.11.17	Removes the punctuation near the cursor
FindRepeatedWords	03.11.17	Finds words that are repeated in a given range
AuthorsNotAllCaps	30.10.17	Changes author surnames to initial cap only
SortTextBlocks	28.10.17	Alpha sorts blocks of text by first line
SortOnTextAfterDelimiter	28.10.17	Sorts the selected list based on second 'field'
MaggyIt	28.10.17	Creates a Maggyed Paul Beverley - Version of the current file
ArticleChanger	28.10.17	Types, deletes or switches article 'the'/'a'/'an'.
VisibleTrackOff4	27.10.17	Visible trackchange reminder - yellow background
AlphaOrderChecker	27.10.17	Creates an alpha-sorted Paul Beverley - Version of selected text showing changes
TagDQ	03.10.17	Add a tag to the current paragraph
ListLowercaseNoPunct	03.10.17	Lowercases the initial char + removes end punctuation
AcronymDefinitionLister	17.09.17	Creates a list of acronyms with definitions
ListHighlightedOrColoured	09.09.17	Lists alphabetically any text that is highlighted
ListHighlightedText	08.09.17	Lists alphabetically any text that is highlighted
FontFunniesClearThisOne	08.09.17	Makes the selected text into the default font
FontFunniesClearAll	08.09.17	Changes all text in this specific font into the default font
FontFind	08.09.17	Finds text in a given font name in selected text or whole file
HideShowText	07.09.17	Makes body text invisible
FunnyFontFind	07.09.17	Finds the next paragraph that has mixed fonts
FunnyFontClear	07.09.17	Makes all text in the selection the same font
FindInDeletedText	07.09.17	Searches only the deleted (track changed) text
PunctuationOff	24.08.17	Delete the next punctuation item
StrikeSingle	15.08.17	Adds or removes strike-through
FigTabBoxTagger	21.07.17	Add tags to captions of all Figures, Tables and Boxes
KeystrokesRestoreAll	20.07.17	Creates keybindings from a list
KeystrokesSaveAll	19.07.17	Creates a list of all user-defined keystrokes
KeystrokesMacroRestore	18.07.17	Applies keystrokes from a list of macros and keystrokes
FindAndDo	15.07.17	Finds something specific and does things to each one
TagVariousAttributes	13.07.17	Add red tags to all italic text
KeystrokesMacroSave	13.07.17	Creates a list of all macro keystrokes
TablesToTabText	27.06.17	Converts all tables into tab-separated text
TagHighlighter	09.06.17	Highlights all of the ranges a paired tag, e.g. ,
TagChecker	09.06.17	Checks the continuity of a paired tag, e.g. ,
LigatureConverter	09.06.17	Replaces funny codes for fi/ff/fl/ffi in converted PDF
HighlightMultiAuthorCitations	09.06.17	Finds and highlights all the multi-author citations in the text
FullPointOnCaptions	09.06.17	Finds captions and ensures that they have a full point
FullPointOnBullets	09.06.17	Finds bullet items and ensures they have a full point
DeleteRestOfLine	09.06.17	Deletes from the beginning of current word to the end of the line
UnderlineOnlyItalic	08.06.17	Removes all underlining, then underlines all italic text
ShowFormatting	10.05.17	Display all formatting or just paragraph marks
FullFileNameCopy	09.05.17	Copy the full file name of the current file to the clipboard

VisibleTrackOff5	06.05.17	Visible trackchange reminder - selectable background colour
TextProbe	05.05.17	Find funny character codes
TypeSectionNumber	29.03.17	Adds a section number to the current heading
FindNextBigText	29.03.17	Searches down for a bigger than Normal font
DisplayedTextFormat	28.03.17	Removes quotes and romanises (and trims trailing spaces)
ItalicParaDelete	23.03.17	Deletes all paragraphs that are mainly in italic
VisibleTrackOff3	14.03.17	A visible trackchange reminder - using a wiggly line!
FindReplaceStay	09.03.17	Finds and replaces but don't move to next
EquationSpacer	10.02.17	Adds spaces either side of equations that butt up to some text
HighlightWordList	27.01.17	Highlights (and/or colours) all the words/phrases in a list
StyleBodyIndent	20.01.17	Adds body style generally, plus No indent after headings
ReplicateThisEdit	07.01.17	Replicates the change just made, through the rest of the file
AutoCorrectItemsList	03.01.17	Lists all current autocorrect items
AutoCorrectItemsDeleteAdd	03.01.17	Optionally deletes all items, then adds new items
AuthorDateFormatter	03.01.17	Checks/corrects author/date formatting of reference list
TitleRemoveQuotesAndCaps	13.12.16	Removes quotes from current sentence, then makes it lowercase
HighlightOddPunctuationFormat	13.12.16	Highlights oddly formatted punctuation marks
DeleteAllImagesAndCloseUp	13.12.16	Deletes all images and closes the gaps
AddQuotesAndTitleCap	13.12.16	Puts quotes on sentence, then makes it title case
FReditSimple	10.12.16	Performs a list of F&Rs
CiteCheck	09.12.16	Checks reference citations
DeleteAllInlineImages	06.12.16	Delete all inline from a file
DeleteAllImagesAddCallout	06.12.16	Deletes all images from a file and leave a caption line.
ListAllColouredWords	02.12.16	Creates an alphabetic list of all words in the selected font colour.
AutoListOff	22.11.16	Changes auto-bulleted listing to real bullets
Romanise	24.10.16	Removes italic from the next set of italic characters.
ListItemNumberFormatter	24.10.16	Format the numbering of current list item
EquationsConvertAll	24.10.16	Converts all Equation Editor items to their text equivalent.
AlphabeticOrderChecker	22.10.16	Find any suspicious non-alphabetism
ReferenceDateShift	14.10.16	Move date from end of reference to after author(s)
TableCellsInitialCaps	01.09.16	Applies an initial capital to every cell in the selected range
StrikeAndColour	01.09.16	Adds strikethrough and colour
ListAllLinks	01.09.16	Creates a table of all URLs in the file
FormatRemoveNotURLs	01.09.16	Removes all styles and formatting except URLs
CloneWordFile	01.09.16	Create a clean new copy of a document
CloneWithEquations	01.09.16	Creates a clean copy of a file, including formatted equations
EquationsStrikeThroughAll	31.08.16	Ensure that no equations are edited by FRedit etc.
DoubleQuotesToSingle	31.08.16	Changes the curly quotes on a given phrase from double to single
DeleteAllFigures	31.08.16	Delete all images from a file that have a caption
ReferenceCheckWeb	30.08.16	Check each hyperlink and highlight accordingly
TagSelectedOrBold	02.05.16	Add red tags to the currently selected text or italic text
ItalicBoldTagger	02.05.16	Adds red tags to all italic and/or bold text
HighlightDuplicateSentences2	01.05.16	Highlight pairs of identical sentences
HighlightDuplicateSentences	01.05.16	Highlight pairs of identical sentences
SpellingListProcess	27.04.16	Tidy up a spelling FRedit list from cursor downwards
LetterIncrement	26.04.16	Find next alpha character and decrement it alphabetically
LetterDecrement	26.04.16	Find next alpha character and increment it alphabetically
CountRemainderSimple	25.04.16	Count words below the cursor
ComboBoxAccept	14.04.16	Find combo boxes and replace with the currently selected text
TagSelectedOrItalic	13.04.16	Add red tags to the selected text or italic text
UndoSpecificTrack	06.04.16	Find specific text and undo the track changes on it

ItaliciseOneVariable	06.04.16	Run along to find the next single alpha char and italicise it
SinglePrime	19.02.16	Add single prime
NotesUnembed	19.02.16	Unembeds footnotes or endnotes
DoublePrime	19.02.16	Add double prime
CountWordsInHighlightColour	10.02.16	Count the number of words in a given highlight colour
EnclosureFixer	09.02.16	Checks and corrects the order of enclosures - brackets etc.
DuplicatedWordsHighlight	03.02.16	Add a highlight to any duplicate words in a text, e.g. "the the"
DuplicatedWordsFind3	03.02.16	Find next consecutive three-word duplicate
DuplicatedWordsFind2	03.02.16	Find next consecutive two-word duplicate
DuplicatedWordsFind	03.02.16	Find next consecutive duplicate word (idea from Douglas Vipond)
HyphenationToStylesheet	27.01.16	Create a word list from a HyphenAlyse file
FReditSwap	20.01.16	Swaps the two sides of a FRedit item
FReditCopy	20.01.16	Copy word to make FRedit script item
BookmarkToCursorSelect	12.01.16	Select from temporary marker to cursor
BookmarkTempClear	12.01.16	Delete temporary markers
BookmarkTempAdd	12.01.16	Add temporary marker
UnitSpacer	07.12.15	Find units with numbers and add a thin space
AbbrSwap	24.11.15	Swap abbreviation into or out of brackets
TitleUnCapper	27.10.15	Uppercase initial letter only on first word
BoxTextIntoBody	08.10.15	Copy text out of textboxes, then delete the boxes
ContentsListerByNumber	25.09.15	Create a contents list from numbered headings
FileChopper	29.08.15	Chops text into a number of smaller file using page breaks
PunctuationFormatChecker	06.08.15	Variously highlight italic/roman punctuation
TrackChangeShowHide	16.07.15	Set up track changes to taste
ColumnTotal	12.05.15	Check the column total
CommentTextNormalise	21.01.15	Get rid of "funny effects" in the comment boxes
RibbonMinMax	18.12.14	Toggle between maximize and minimize of the ribbon
ListLowercaseSemicolon	17.12.14	Add semicolons to bulleted list + lowercase initial char
UKUShighlight	22.11.14	Mark US spellings within UK text and vice versa
ConsolidateTracking	12.11.14	Turns split tracking into a single change
SwapNames	06.10.14	Swap adjacent names
AuthorNameSwap	01.10.14	Changes author surname and initials/given name
ListItemFinder	28.08.14	Jump to an auto-list number
ListCheckStart	28.08.14	Jump to an auto-list number
GreekPicker	20.06.14	Call up the Insert Symbol window set to Greek characters
FindThisOrThat	24.02.14	Find the next occurrence of certain specific words
FindThisOrThatSetUp	22.02.14	Set-up for finding the next occurrence of certain specific words
PDFunderlineToLigature	04.01.14	Restore underline characters into ligatures
PDFsoftHyphenRemove	04.01.14	Unhyphenate split words
AcronymToSmallCaps	31.12.13	Convert all acronyms to small caps
ToCupdate	16.12.13	Update (and customise) the table of contents
CompareTextsOLD	07.12.13	Select non-identical text (was called IdenticalTextCheck)
CommentPickerInserter	14.11.13	Copy a comment from a list and paste into text
SymbolToUnicode	11.11.13	Converts Symbol font characters to Unicode characters
CommentPicker	09.11.13	Copy a comment out of a list of comments
EmailFormatter	05.11.13	Format paragraphs in an email
TypeThinSpace	25.10.13	Types and highlights a thin space
ChangePrevious	23.10.13	Finds next change (not! comment)
ApplyAttribute	19.10.13	Apply attribute to current cell, row, column, paragraph, sentence, word or selection
ContentsListerByStyle	16.07.13	Create a contents list from numbered heading style
CommentAdd2	01.06.13	Add a comment

ShortTitleLister	19.05.13	Create a list of the named references in the notes
FigStrip	09.05.13	Strip out all figures and leave a callout
PDFhardHyphenRestore	18.04.13	Hyphenate falsely concatenated words
PDFfunniesToLigatures	18.04.13	Restore ligatures that have been converted to odd characters
HighlightAllOff	02.04.13	Remove all highlighting, including in boxes
FigCallouts	12.03.13	Figure callout inserter
TableEmDasher	05.03.13	Empty cells and hyphen/en dash to em dash
PerCent	25.02.13	Changes percent symbol to words
SpaceBeforeSelector	18.02.13	Increase and decrease space before paragraph
SpaceAfterSelector	18.02.13	Increase and decrease space after paragraph
IndentRightSelector	18.02.13	Set left indent settings to specific values
IndentLeftSelector	18.02.13	Set left indent settings to specific values
IndentFirstSelector	18.02.13	Set left indent settings to specific values
FontEliminate	16.02.13	Restore anything in this font to the default font
GermanQuotes	14.02.13	Switch UK quotes to German quotes
FrenchQuotes	14.02.13	Switch UK quotes to French quotes
AutoCurlyQuotesON	14.02.13	Switch on auto curly quotes
AutoCurlyQuotesOFF	14.02.13	Switch off auto curly quotes
IndentsSet	01.02.13	Set indent settings
IndentsMeasure	01.02.13	Measure and display current indent settings
FetchThisMacro	27.01.13	Find and copy the current macro
TagList	19.01.13	Add tags to a numbered or bulleted list
FindNextNumber	09.01.13	Jump from one number to the next - section, fig, table, etc
FindPreviousNumber	08.01.13	Jump back to the previous number
MatchDoubleQuotes	07.12.12	Check whether double quotes match up
MatchBrackets	07.12.12	Check whether brackets match up
CodeFirstLines	05.12.12	Prepare the file by adding codes, etc.
DeleteSomeLinks	31.10.12	Delete hyperlinks that are not URLs
DeleteAllLinks	30.10.12	Delete all hyperlinks
BasicIndexer2	22.10.12	Basic indexing
PunctuationSwitcher	04.10.12	Changes order of next two punctuation marks
SortNumberedList	03.07.12	Sort references, ignoring the number at the beginning
CiteFileLink2	25.06.12	Link text and references files for CiteCheck
ListBulleter	09.06.12	Add a bullet to every paragraph in a list
AddWordToStyleList	26.05.12	Adds the selected text to the style list file
NoteJumper	21.05.12	Jump back and forth between notes and main text
LongSentenceHighlighter	19.05.12	Highlight all sentences more than a certain length
ShowStyles	06.05.12	Show style names as <A>-type codes in the text
TagBulletLists	30.04.12	Add tags to all bullet lists
CiteFileLink	18.04.12	Link text and references files for CiteCheck
DeleteAllComments	21.02.12	Delete all comments
TooDifficultWordHighlighter	15.02.12	Highlights any words not included in word list
PageNumberChecker	09.02.12	Check that the text page number = Word's page number
ContentsListChecker	09.02.12	Confirm the page numbers in the contents list
SampleFindAndDo	08.02.12	Find something specific and do things to each one
NumberSequenceCheckerHierarchical	06.02.12	Check the sequence of section numbers
FindColouredText	03.02.12	Finds coloured text
AutoListLcaseOne	30.01.12	Lowercase initial letter of one auto-bulleted/numbered list item
AutoListLcaseAll	30.01.12	Lowercase initial letter of all auto-bulleted/numbered list items
MultiChoiceTidierGlobal	26.01.12	Lower case first word and remove end spaces and punctuation
FReditCopyWholeWord	17.01.12	Create FRedit item for whole-word F&R
Yesterday	09.01.12	Type yesterday's date into the text

AddCommentMarkersInText	30.12.11	Add comment initials and numbers to text
NotesUnembedBySections	28.12.11	Unembed endnotes that are numbered in sections
SpellcheckWordUSUK	19.12.11	Spellcheck single word in NOT the current language
AllCapsToInitialCap	14.12.11	Initial cap any words in all caps
SelectTheseWords	12.12.11	Extend selection to whole words
SpellcheckWordCurrent	10.12.11	Spellcheck single word in current language
LanguageHighlight	05.12.11	Highlight all text not in main language
InitialCapItalicText	03.12.11	Initial caps on significant words in italic text in notes
InitialCapItalicInNotes	03.12.11	Initial caps on significant words in italic text in notes
TrackChangeReject	23.11.11	Rejects the track changes on the current line
TrackChangeAccept	23.11.11	Accepts the track changes on the current line
CountCase	23.11.11	Count the numbers of upper and lowercase characters
ChangeNotTracked	03.11.11	Changes (or add) some text, but don't track the change
TagA	29.10.11	Adds a tag to the current paragraph
CiteFindName	21.10.11	Jump back from date to name
CellsAddChar	20.10.11	Check that there is a full point ending each cell
PunctAlyse	18.10.11	Produces usage statistics of various punctuation
FontHighlight	03.10.11	Highlight all fonts NOT named in the list
SelectHighlightedText	05.09.11	Selects all text in a given highlight
PictureShow	31.08.11	Switch pictures on and off
HideShowPictures	31.08.11	Switch pictures on and off (Was called PictureShow)
SpellcheckWordUS	25.08.11	Spellcheck single word US
SpellcheckWordUK	25.08.11	Spellcheck single word UK
SuperscriptNoteNumber	11.08.11	Superscript note number
ItalicKill	11.08.11	Removes italic from selected text or current line
HighlightLongQuotesSingle	11.08.11	Highlight all long quotes (single)
HighlightLongQuotesDouble	11.08.11	Highlight all long quotes (double)
BoldKill	11.08.11	Remove bold from selected text or current line
BorderParaOff	06.08.11	Remove the borders applied to the paragraph
EndNoteFiddleSuperscript	25.07.11	Makes changes to superscript on all endnotes
SuitToText	21.07.11	Convert playing card suit symbols to text
IndentChanger	07.07.11	Changes paras of one indent value to another
CodeIndentedParas	07.07.11	Add codes to indented paragraphs
FindReplaceAdvanced	04.06.11	Call up Advanced Find & Replace dialog box
FindAdvanced3	01.06.11	Call up Advanced Find dialog box
HighlightListerDeLuxe	27.05.11	List all the highlight colours used
HighlightLister	26.05.11	List all the highlight colours used
NumberParasAuto	21.05.11	Adds hierarchical section numbering
MarkFinalOnOff	14.05.11	Switch "Mark as final" facility on/off
PDFpagerSimple	11.05.11	Highlight all the page numbers
PDFpagerOddEven	11.05.11	Highlight all the page numbers alternately left & right
SciMarkPicker	10.05.11	Call up the Insert Symbol window set to Greek characters
AccentPicker	10.05.11	Call up the Insert Symbol window set to accented characters
SpellcheckWarn	30.04.11	Run a spellcheck, but beep if not UK or languages are mixed
FandRapostrrophe	22.04.11	F&R text that contains curly quotes/apostrophe
ReferenceNameFinder	08.04.11	Get date from reference and add after author citation
FullNameType	31.03.11	Types out the full filename of the open file
FReditListRun	31.03.11	Load, run and close a specific FRedit list
CountHighlightColour	04.03.11	Count how many times a highlight colour occurs
AcceptSpecificTrackChange	02.03.11	Accept all occurrences of one specific track change
HighlightIndentedParas	01.03.11	Highlight all indented paragraphs
TrackOnOffAudible	26.02.11	Track on/off with audio feedback
SpikePaste	26.02.11	Paste the whole contents of the spike
SpikeCut	26.02.11	Cut to spike
SpikeCopy	26.02.11	Copy to spike

InstantFindBottom	25.02.11	I couldn't possibly comment!
TrackingShowSwitcherExtreme	23.02.11	Toggle visibility of track changes
TrackingShowSwitcher	23.02.11	Toggle visibility of track changes
ClipToTextWithEmphasis	23.02.11	Get pure text from pdfs and websites
FindAdvanced2	22.02.11	Call up Advanced Find dialog box
FindAdvanced1	22.02.11	Call up Advanced Find dialog box
SortCaseSense	17.02.11	Sort into separate lists: Lcase/Ucase
ListSemicolon	15.02.11	Add semicolons to bulleted list
HighlightAllQuestions	15.02.11	Highlights all questions
AcronymFinder	11.02.11	Find a group of words for an acronym
LowercaseGlobal	10.02.11	Lowercase this phrase throughout text
SemicolonEndPara	09.02.11	Lowercase first character + add semicolon at end
AddSectionNumber	07.02.11	Add indexed section number
HeadingStyler	02.02.11	Styles all headings by depth of section number
BodyTexter	02.02.11	Apply 'Body Text' to every paragraph in 'Normal'
MultiChoiceTidierSingle	28.01.11	Lowercases initial char of answer + remove end spaces + punct
SelectCurrentPage	26.01.11	Select the current page
WordTotaller	21.01.11	Adds up word numbers in selected texts
CodeBoldParas	13.01.11	Tag/code every bold heading
UnHighlightExcept	11.01.11	Remove all highlights except one/two chosen colours
LongSentenceCheck	06.01.11	Colour long sentences
StylePaste	04.01.11	Paste style
StyleCopy	04.01.11	Copy style
PasteWithEmphasis	30.12.10	Paste with emphasis
FindStyle	30.12.10	Find text in this style
BasicIndexer	27.12.10	Basic indexing
IndexElide	23.12.10	Add elision to an index
PageHopper2	18.12.10	Go to page x
TableCallouts	14.12.10	Table callout inserter
PageHopper	08.12.10	Go to page x
Spellcheck	06.12.10	Run a spellcheck
CommaAddUSUK	28.11.10	Add a comma
SelectParagraph	24.11.10	Selects current paragraph
InstantFindTop	18.11.10	Find this from the top
FindStyleOld	17.11.10	Find text in this style
FindStyleOldUp	16.11.10	Find text in this style
ParaShort	06.11.10	Finds medium-length paragraphs
ListHighlighter	19.10.10	This highlights all 'short' paragraphs in a text
FootnoteNextUp	13.10.10	Jump to previous footnote
FootnoteNext	13.10.10	Jump to next footnote
NextNumberUp	11.10.10	Find previous section number
NextNumberPlusUp	11.10.10	Find previous section number
NextNumberPlus	11.10.10	Find next section number
NextNumber	11.10.10	Find next section number
InstantFindFormatUp	10.09.10	Find format similar to this
InstantFindFormatDown	10.09.10	Find format similar to this
CaseNextPara	12.08.10	Changes case of initial letter of the paragraph
ThatWhich	26.07.10	Changes that to which and vice versa
ItalicCount	22.07.10	Counts the number of words that are in italic
ToCback	18.07.10	Jump back to table of contents
DeleteComments	18.06.10	Delete all comments
DeleteAllBookmarks	18.06.10	Delete all bookmarks
TextBoxFrameCut	01.06.10	Remove textboxes and frames
SetTextBoxStyle	01.06.10	Apply style to all textboxes

PunctOffBothEnds	01.06.10	Removes punctuation from both ends of a word
NoteDeleteDblSpace	01.06.10	Deletes double spaces from endnotes
JustifyOFF	01.06.10	Turn format off on all paragraphs
FunnyChange	01.06.10	Make various complicated changes to all paragraphs
FootnoteNumberNotItalic	01.06.10	Makes changes to all footnotes
FirstNotIndent	01.06.10	Full-out paragraph under all headings
CopyComments2	01.06.10	Create a list of all the comments
CopyComments	01.06.10	Create a list of all the comments
AutoListOffSimple	01.06.10	Auto-lists to text
InitialNext	29.05.10	Find run of caps
InitialCapOnly	29.05.10	Reduce all-capitals to initial cap
CentreText	07.05.10	Centre the text
ColourToggle	05.05.10	Red text on/off
SpecialCharList	28.02.10	Creates a list of the Unicode characters in the document
SymbolFontCheck	23.02.10	Greek symbol font checker
ShowFixedSpaces	09.02.10	Fixed spaces visible
KeystrokeLister	03.02.10	Create a list of custom key allocations
CustomKeys	03.02.10	Open the Customize Keyboard dialogue box
DoNowt	01.02.10	Do nothing at all!
PasteUnformatted	30.01.10	Pastes unformatted
Hyphenate	28.01.10	Hyphenate two words
HiLightOffCurrentLine	22.01.10	Removes highlight (text colour) from selected text or current line
ListUcaseAll	07.01.10	Upper case initial letter of all list items
ListUcase	07.01.10	Upper case initial letter of list item
ClipToText	04.01.10	Get pure text from pdfs and websites
WikiToText	01.01.10	Convert from text to Wiki format
WikiToStyles	01.01.10	Convert from Wiki format to text
WikiSwitch	01.01.10	Convert text to and from Wiki format
VisibleTrackOff2	01.01.10	Visible reminder that track changes is off
VisibleTrackOff	01.01.10	Visible reminder that track changes is off
TrackOnOff	01.01.10	Toggle track changes on and off
ShowHideTracksOnly	01.01.10	Toggle showing just track changes on and off
ShowHideAllTracking	01.01.10	Toggle showing track changes and comments on and off
OvertypBeep2	01.01.10	Sound warning beep on overtyp + visual
OvertypBeep	01.01.10	Sound warning beep on overtyp
NonCurlyQuote	01.01.10	Add non-curly double quote
NonCurlyApostrophe	01.01.10	Add non-curly single quote
MacroIndent	01.01.10	Automatically indent a macro listing
HiLightTurquoise	01.01.10	Adds highlight in turquoise
HiLightON	01.01.10	Adds highlight in currently selected colour
HiLightOffALL	01.01.10	Removes ALL highlights (text colour) from whole text
HiLightOFF	01.01.10	Removes highlight (text colour) from selected text
ToggleNextCharCase2	28.09.09	Changes case of the next character/selection
ToggleNextCharCase	28.06.09	Changes case of the next character/selection
<i>Alphabetic order</i>		
AAnAlyse	16.01.21	Checks a's and an's for agreement with the following word
AbbrSwap	24.11.15	Swap abbreviation into or out of brackets
AccentAlyse	06.02.20	Analyses all the words that contain an accent
AccentedWordCollector	03.02.20	Creates a list of all the accented words in a text
AccentPicker	10.05.11	Call up the Insert Symbol window set to accented characters
AcceptSpecificTrackChange	02.03.11	Accept all occurrences of one specific track change
AcceptTrackedFormatChanges	21.06.22	Accepts just the formatting track changes

AcceptTrackingSelectively	10.02.21	Accepts track changes of specific author/editor
AcronymAlyse	27.11.21	Lists all acronyms, with frequency
AcronymDefinitionLister	17.09.17	Creates a list of acronyms with definitions
AcronymFinder	11.02.11	Find a group of words for an acronym
AcronymLister	17.09.18	List all acronyms
AcronymToSmallCaps	31.12.13	Convert all acronyms to small caps
AddCommentMarkersInText	30.12.11	Add comment initials and numbers to text
AddKeys	08.07.20	Adds keybindings to macros
AddQuotesAndTitleCap	13.12.16	Puts quotes on sentence, then makes it title case
AddQuotesDouble	06.06.22	Adds quotes round a word or phrase
AddQuotesSingle	06.06.22	Puts single quotes round the current word or phrase
AddSectionNumber	07.02.11	Add indexed section number
AddTextRoundText	14.01.21	Adds text at either end of a word or phrase (can delete punctuation)
AddWordToStyleList	26.05.12	Adds the selected text to the style list file
AllCapsToInitialCap	14.12.11	Initial cap any words in all caps
AlphabeticOrderByLine	14.08.18	Finds any suspicious non-alphabetism
AlphabeticOrderChecker	22.10.16	Find any suspicious non-alphabetism
AlphaHeadersOnIndex	10.09.19	Adds alpha headers to an index
AlphaOrderChecker	27.10.17	Creates an alpha-sorted Paul Beverley - Version of selected text showing changes
Ampersand	03.06.22	Changes next ampersand to 'and'
ApplyAttribute	19.10.13	Apply attribute to current cell, row, column, paragraph, sentence, word or selection
ArticleChanger	28.10.17	Types, deletes or switches article 'the'/'a'/'an'.
AuthorCaseChange	16.01.21	Lowercases author surnames (e.g. SMITH, J. to Smith, J.) in references list
AuthorDateFormatter	03.01.17	Checks/corrects author/date formatting of reference list
AuthorForenamesInitialiser	15.06.19	Changes author forenames to initials
AuthorInitialCapitalReferences	16.01.21	Changes author surnames in all capitals to initial capital
AuthorNameReinsert	05.09.20	Replaces the dash-and-comma for the author's name
AuthorNameReinsertParens	05.09.20	Replaces the dash-and-comma for the author's name (parenthesis)
AuthorNameSwap	01.10.14	Changes author surname and initials/given name
AuthorsNotAllCaps	30.10.17	Changes author surnames to initial cap only
AutoCorrectItemsDeleteAdd	03.01.17	Optionally deletes all items, then adds new items
AutoCorrectItemsList	03.01.17	Lists all current autocorrect items
AutoCurlyQuotesOFF	14.02.13	Switch off auto curly quotes
AutoCurlyQuotesON	14.02.13	Switch on auto curly quotes
AutoListLcaseAll	30.01.12	Lowercase initial letter of all auto-bulleted/numbered list items
AutoListLcaseOne	30.01.12	Lowercase initial letter of one auto-bulleted/numbered list item
AutoListOff	22.11.16	Changes auto-bulleted listing to real bullets
AutoListOffSimple	01.06.10	Auto-lists to text
AutoTagger	30.09.19	Tag/code automatically
BackgroundColourAllOff	11.04.20	Removes all background colours
BackgroundColourOff	11.04.20	Remove background colour
BackgroundColourOnOff	25.08.20	Switches background colour on/off
BasicIndexer	27.12.10	Basic indexing
BasicIndexer2	22.10.12	Basic indexing
BibSortWithDittos	07.07.20	Sorts bibliographic list including ditto marks
BLcatalogueFetch	21.11.20	Launches selected text on Google
BodyTexter	02.02.11	Apply 'Body Text' to every paragraph in 'Normal'
BoldFirstOccurrence	13.09.19	Emboldens the first occurrence of words in a list

Boldiser	03.05.22	Toggles bold for next character or selected text
BoldKill	11.08.11	Remove bold from selected text or current line
BookmarkTempAdd	12.01.16	Add temporary marker
BookmarkTempClear	12.01.16	Delete temporary markers
BookmarkTempFind	29.04.20	Go to temporary marker
BookmarkToCursorSelect	12.01.16	Select from temporary marker to cursor
BorderParaOff	06.08.11	Remove the borders applied to the paragraph
BordersAddToText	26.05.18	Changes underlined+highlighted text to coloured borders
BordersAllOff	26.05.18	Removes border attributes from some or all text
BordersNext	10.10.19	Finds next paragraph with borders
BordersPrevious	10.10.19	Finds previous paragraph with borders
BoxTextIntoBody	08.10.15	Copy text out of textboxes, then delete the boxes
CapitaliseUndoubler	13.09.19	Finds doubled capital letters and corrects them
CapitAlyse	22.12.21	Analyses capitalised words
CapperMax	10.06.22	Uppercases initial letter of all major words (title case)
CapperMin	10.06.22	Lowercases initial letter of capitalised words (sentence case)
CaptionsListAll	13.09.19	Lists all paragraphs with bold Figure, Table, Box
CaseNextChar	02.11.21	Changes case of the next character/selection
CaseNextPara	12.08.10	Changes case of initial letter of the paragraph
CaseNextWord	20.04.22	Changes case of initial letter of next word or selection
CaseThisWord	06.05.22	Changes initial case of current word and jumps to next word
CatchPhrase	18.05.18	Searches for repeated phrases/sentences
CellsAddChar	20.10.11	Check that there is a full point ending each cell
CentreText	07.05.10	Centre the text
CenturyAlyse	25.11.20	Analyses how centuries are formatted in a document
ChangeNext	30.05.20	Finds next change (but not comment)
ChangeNotTracked	03.11.11	Changes (or add) some text, but don't track the change
ChangePrevious	23.10.13	Finds next change (not! comment)
ChapterChopper	16.04.22	Chops a book file into a set of chapter files
CharacterSwitch	06.02.21	Scripted character switching
CharToAcute	01.02.21	Adds an acute accent to the next vowel
CharToCircumflex	01.02.21	Adds a circumflex to the next vowel
CharToGrave	01.02.21	Adds a grave acute accent to the next vowel
CharToMacron	13.09.19	Adds a macron accent to the next vowel
CharToUmlaut	01.02.21	Adds various accents
CharToVariousAccents	01.02.21	Adds various accents
Chirimbolos	04.08.20	Chirimbolos - WhatChar in SPANISH by Marcela Ronaina
ChronoColourOff	25.09.18	Removes one specific colour of highlighting
ChronologyChecker	15.04.22	Copies paragraphs containing date references into a new file
CitationAlyse	26.05.22	Checks citations against references
CitationListChecker	08.09.20	Checks citations against references list
CitationListCheckerChecker	09.04.21	Rechecks citations against references, esp. Chicago-type
CitationLister	04.07.20	Create a list of all citations
CitationListSortByYear	16.01.21	Sorts items in a citation list in the text by date.
CitationListTrimmer	16.01.21	Tidies up 'funny' items in a citation list.
CiteCheck	09.12.16	Checks reference citations
CiteFileLink	18.04.12	Link text and references files for CiteCheck
CiteFileLink2	25.06.12	Link text and references files for CiteCheck
CiteFindName	21.10.11	Jump back from date to name
ClearHighlightAndColour	28.01.22	Removes all highlighting, colouration and (optionally) underlining
ClipboardLoader	06.01.18	Puts text in clipboard from a menu
ClipPaste	15.04.20	Collects and pastes an item from a clip list
ClipPaste_1	20.03.20	Collects and pastes a numbered item from a clip list
ClipPasteTextOnly	15.04.20	Collects and pastes an item from a clip list

ClipStore	20.03.20	Copies the selected text into a clip list
ClipToText	04.01.10	Get pure text from pdfs and websites
ClipToTextWithEmphasis	23.02.11	Get pure text from pdfs and websites
CloneWithEquations	01.09.16	Creates a clean copy of a file, including formatted equations
CloneWordFile	01.09.16	Create a clean new copy of a document
CodeBoldParas	13.01.11	Tag/code every bold heading
CodeFirstLines	05.12.12	Prepare the file by adding codes, etc.
CodeIndentedParas	07.07.11	Add codes to indented paragraphs
CodeSegmentProtect	06.01.18	Applies strike-through to computer code sections
Colon	19.06.19	Make adjacent words into colon separated
ColonUnbold	06.01.18	Romanises bold colons that are followed by roman text
ColourMinus	16.03.21	Removes or adds font colour in a choice of colours
ColourPlus	24.03.21	Adds font colour in a choice of colours
ColourToggle	05.05.10	Red text on/off
ColumnTotal	12.05.15	Check the column total
ComboBoxAccept	14.04.16	Find combo boxes and replace with the currently selected text
Comma	19.06.19	Make adjacent words into comma separated
CommaAdd	16.04.22	Adds a comma after the current word
CommaAddPrevious	19.09.18	Adds a comma before the current word
CommaAddUSUK	28.11.10	Add a comma
CommaInDialogue	17.02.21	Give adjacent words a comma link
CommentAdd	13.01.21	Adds a comment
CommentAdd2	01.06.13	Add a comment
CommentAdder	02.11.21	Adds a comment off a menu
CommentAddFromFile	15.07.22	Adds a comment from a file of ready-made comments
CommentAddMenu	16.01.21	Adds a comment off a menu
CommentAddSimple	18.12.20	Adds a new comment with a standard text item added
CommentBracketsToBubbles	26.05.18	Copies text in square brackets and into comment bubbles
CommentBubblesToBrackets	26.05.18	Copies comments into brackets in running text
CommentChangeScope	04.03.20	Reduces or extends the scope of a comment
CommentCollectTabulated	14.01.22	Collects comments into a table
CommentCompose	06.08.21	Allows you to create a new (modern) comment
CommentComposeMenu	06.08.21	Adds a comment off a menu
CommentContextCopier	20.01.18	Copies paragraphs containing comments into a new file
CommentCopier	15.06.19	Creates an author query list
CommentInitialFandR	14.08.19	Finds and replaces comment initials
CommentInitialReplaceAll	14.08.19	Changes all comment initials
CommentJumpInOut	13.06.22	Jumps in and out of comment text
CommentListNumbered	16.01.21	List all comments in file with index numbers
CommentNext	13.11.21	Goes to next comment
CommentNumbering	20.05.19	Add or remove fixed comment numbers
CommentPicker	09.11.13	Copy a comment out of a list of comments
CommentPickerInserter	14.11.13	Copy a comment from a list and paste into text
CommentPrevious	14.11.21	Goes to previous comment
CommentsAddIndexOnInitials	17.10.19	Adds (and removes) serial numbers to initials in comments
CommentsDeleteAllNotTagged	17.10.19	Deletes all comments *not* starting with a specific tag
CommentsDeleteSelectively	13.05.20	Deletes all comments that have a specific tag
CommentsModernCollect	02.08.21	Extracts modern comments with format and colouring
CommentsModernDelete	02.08.21	Deletes current comment or all comments
CommentsPane	11.05.21	Opens and closes the Comments pane
CommentsPaneOLD	08.11.17	Open the comments pane
CommentTextNormalise	21.01.15	Get rid of "funny effects" in the comment boxes
CompareNow	26.10.21	Creates an instant comparison of two open Word files

CompareTexts	14.11.19	Compares copied text (i.e. clipboard contents) with selected text
CompareTextsOLD	07.12.13	Select non-identical text (was called IdenticalTextCheck)
ConcordanceMaker	17.04.20	Creates a concordance list
Confusables	17.06.22	Highlights/colours list of words in confusables file
ConsolidateTracking	12.11.14	Turns split tracking into a single change
ContentsListChecker	09.02.12	Confirm the page numbers in the contents list
ContentsListerByNumber	25.09.15	Create a contents list from numbered headings
ContentsListerByStyle	16.07.13	Create a contents list from numbered heading style
ContentsListerByTag	17.09.18	Creates a contents list from tags, <A>, , etc.
CopyAllEditedSentences	20.04.21	Copies all sentences that have tracked edits in them
CopyComments	01.06.10	Create a list of all the comments
CopyComments2	01.06.10	Create a list of all the comments
CopyFullFilename	29.06.22	Loads full filename of current document into clipboard
CopyHighlightedTextParagraphs	06.01.18	Copies paragraphs containing highlighted text into a new file
CopyHighlightedTextSentences	09.06.20	Copies sentences containing highlighted text into a new file
CopyTextSimple	23.05.22	Creates a text-only copy, with some features preserved
CopyTextVerySimple	28.10.20	Creates a text-only copy, with no features preserved
CopyToList	16.01.21	Copies selected text into a list file
CountCase	23.11.11	Count the numbers of upper and lowercase characters
CountChapterPages	03.04.21	Counts words in sections of text between headings
CountDownVisible	03.04.20	Shows a statusbar and Big Text countdown to zero
CountHighlightColour	04.03.11	Count how many times a highlight colour occurs
CountPhrase	27.05.21	Counts this word or phrase
CountRemainder	29.04.22	Counts words below the cursor
CountRemainderSimple	25.04.16	Count words below the cursor
CountSectionWords	03.04.21	Counts words in sections of text between headings
CountWordsInHighlightColour	10.02.16	Count the number of words in a given highlight colour
CurlyQuotesToggle	18.02.20	Switches on auto curly quotes on and off
CustomKeys	03.02.10	Open the Customize Keyboard dialogue box
Dash	20.07.20	Removes punctuation, adds dash and lowercases next char
DayDateAlyse	10.04.22	Lists words out of a proper noun frequency list
DeleteAllBookmarks	18.06.10	Delete all bookmarks
DeleteAllComments	21.02.12	Delete all comments
DeleteAllEndnotes	19.09.18	Delete all endnotes
DeleteAllFigures	31.08.16	Delete all images from a file that have a caption
DeleteAllFootnotes	19.09.18	Delete all footnotes
DeleteAllImagesAddCallout	06.12.16	Deletes all images from a file and leave a caption line.
DeleteAllImagesAndCloseUp	13.12.16	Deletes all images and closes the gaps
DeleteAllInlineImages	06.12.16	Delete all inline from a file
DeleteAllLinks	30.10.12	Delete all hyperlinks
DeleteAllSpellingErrors	08.05.19	Deletes all spelling errors
DeleteComments	18.06.10	Delete all comments
DeleteCommentsSelectively	10.02.21	Accepts track changes of specific author/editor
DeleteOneWord	15.07.22	Deletes current word, but no punctuation (was called DeleteWord)
DeleteRestOfLine	09.06.17	Deletes from the beginning of current word to the end of the line
DeleteRestOfSentence	14.01.21	Deletes from end of current word to the end of the sentence
DeleteSentenceAfterQuote	25.09.18	Deletes rest of sentence after current quote
DeleteSomeLinks	31.10.12	Delete hyperlinks that are not URLs
DictaFRedit	06.02.21	Adds features to Word 365 Dictate, and cleans up it errors
DictionaryFetch	08.08.20	Launches selected text to dictionary.com
DictionaryFetchByLanguage	21.03.22	Checks the current word in a language-related dictionary
DictionaryFetchDE	08.08.20	Launches selected text to dudn.de

DictionaryFetchNL	08.08.20	Launches selected text to https://www.vandale.nl
DictionaryMultipleFetch	17.06.21	Launches selected text to dictionary.com and other dictionaries
DisplayedTextFormat	28.03.17	Removes quotes and romanises (and trims trailing spaces)
DisplayQuote	17.05.21	Finds or displays a long quote
DIYColourLongSentences	24.11.20	Adds a highlight to sentences longer than 40 words
DIYColourLongWords	24.11.20	Adds a highlight to sentences longer than 40 words
DIYFindAshortMacro	24.11.20	Finds a macro shorter than a certain length
DIYFormatHeadwords	24.11.20	Adds a character style to the first word of every para in a given style
DocAlyse	08.02.22	Analyses various aspects of a document
DocAlyseForMac	28.09.19	Analyses various aspects of a document
DoNwt	01.02.10	Do nothing at all!
DoublePrime	19.02.16	Add double prime
DoubleQuotesSingleTopical	14.10.19	Changes double quotes around current text to singles
DoubleQuotesToSingle	31.08.16	Changes the curly quotes on a given phrase from double to single
DoubleSpaceAfterSentence	28.02.18	Ensures that every sentence has TWO spaces after it
DTMEfetch	10.05.22	Launches selected text on
DuplicatedWordsFind	03.02.16	Find next consecutive duplicate word (idea from Douglas Vipond)
DuplicatedWordsFind2	03.02.16	Find next consecutive two-word duplicate
DuplicatedWordsFind3	03.02.16	Find next consecutive three-word duplicate
DuplicatedWordsHighlight	03.02.16	Add a highlight to any duplicate words in a text, e.g. "the the"
DuplicateSentenceCount	27.10.18	Counts frequency of any duplicated sentences
DuplicatesRemove	10.07.19	Remove duplicate items from a list
EmailFormatter	05.11.13	Format paragraphs in an email
EmailLinker	18.10.19	Finds all email addresses in the text and links them
EmDashUnspaced	14.06.21	Removes punctuation, adds unspaced em dash and lowercases next char
EnclosureFixer	09.02.16	Checks and corrects the order of enclosures - brackets etc.
EndnoteAdd	30.11.17	Creates a new endnote (in a given style and/or sq. brackets)
EndNoteFiddleSuperscript	25.07.11	Makes changes to superscript on all endnotes
Enigmatizer	25.10.19	Obfuscates/anonymises the current file
EquationsConvertAll	24.10.16	Converts all Equation Editor items to their text equivalent.
EquationsHighlightAll	10.10.20	Highlights all maths items
EquationSpacer	10.02.17	Adds spaces either side of equations that butt up to some text
EquationsStrikeThroughAll	31.08.16	Ensure that no equations are edited by FRedit etc.
EtAlCitationElision	09.09.20	Crops multi-author citation to single name + 'et al'
EtAlElision	24.08.20	Crops multi-authors to a given number before 'et al'
ExclamationMark	19.06.19	Make adjacent words into sentence end
FandRapostraphe	22.04.11	F&R text that contains curly quotes/apostrophe
FandRdespiteTCsGlobal	19.09.18	Does current F&R despite track changes (global)
FandRdespiteTCsSelective	19.09.18	Does current F&R despite track changes (selective)
FetchThisMacro	27.01.13	Find and copy the current macro
FieldAlyse	06.09.19	Counts all fields of different types
FieldsUnlink	09.05.19	Selective field removal
FigCallouts	12.03.13	Figure callout inserter
FigStrip	09.05.13	Strip out all figures and leave a callout
FigTabBoxTagger	21.07.17	Add tags to captions of all Figures, Tables and Boxes
FigTableBoxLister	09.07.20	Finds figure/table/box elements and their citations
FileChopper	29.08.15	Chops text into a number of smaller file using page breaks
FileLister	19.09.18	Lists all files in a folder
FileOpener	08.08.20	Menu system to select and load a file(s)

FinalCharDelete	14.01.21	Removes the final character or punct off a word
FindAdvanced1	22.02.11	Call up Advanced Find dialog box
FindAdvanced2	22.02.11	Call up Advanced Find dialog box
FindAdvanced3	01.06.11	Call up Advanced Find dialog box
FindAndDo	15.07.17	Finds something specific and does things to each one
FindBack	09.01.21	Next find backwards
FindBackCase	09.01.21	Next case-sensitive find backwards
FindClip	12.01.21	Find whatever is in the clipboard
FindClipTop	12.01.21	Jumps to the top, and finds whatever is in the clipboard
FindColouredText	03.02.12	Finds coloured text
FindColouredTextUp	03.02.22	Finds coloured text upwards
FindFwd	09.01.21	Finds next match forwards, case insensitively
FindFwdAll	27.06.20	Moves forward to next match: text > notes > comments
FindFwdCase	09.01.21	Next case-sensitive find forwards
FindInContextLoad	04.10.18	Loads name and date ready for FindInContext macro
FindInDeletedText	07.09.17	Searches only the deleted (track changed) text
FindInProximity	12.02.22	Finds certain words within a given word range
FindNextBigText	29.03.17	Searches down for a bigger than Normal font
FindNextNumber	09.01.13	Jump from one number to the next - section, fig, table, etc
FindPreviousNumber	08.01.13	Jump back to the previous number
FindRepeatedWords	03.11.17	Finds words that are repeated in a given range
FindReplaceAdvanced	04.06.11	Call up Advanced Find & Replace dialog box
FindReplaceGo	12.01.21	Finds, replaces and moves to the next match
FindReplaceStay	09.03.17	Finds and replaces but don't move to next
FindSamePlace	02.06.22	Finds the same place in another file
FindSamePlaceBack	02.06.22	Finds the same place in another file (backwards)
FindStyle	30.12.10	Find text in this style
FindStyleOld	17.11.10	Find text in this style
FindStyleOldUp	16.11.10	Find text in this style
FindThisOrThat	24.02.14	Find the next occurrence of certain specific words
FindThisOrThatSetUp	22.02.14	Set-up for finding the next occurrence of certain specific words
FirstLineIndentToTab	07.09.20	Changes all first-line indents to a tab
FirstNotIndent	01.06.10	Full-out paragraph under all headings
FixedFontBlack	13.05.20	Sets font to an 'almost' black font colour
FixedFontBlue	13.05.20	Sets font to an 'almost' blue font colour
FixedFontRed	13.05.20	Sets font to an 'almost' red font colour
FixedFontSwitch	13.05.20	Switches font colour red -> blue -> black ->
FontColourDocumentSplit	25.06.20	Splits a document into coloured and not coloured
FontColourReader	14.08.19	Reads style font colour + any applied colour
FontColourSame	18.06.21	Colours all occurrences of this text in this colour
FontEliminate	16.02.13	Restore anything in this font to the default font
FontFind	08.09.17	Finds text in a given font name in selected text or whole file
FontFunniesClearAll	08.09.17	Changes all text in this specific font into the default font
FontFunniesClearThisOne	08.09.17	Makes the selected text into the default font
FontHighlight	03.10.11	Highlight all fonts NOT named in the list
FontLister	07.04.21	Lists all font names in selected text or whole file
FootnoteAdd	27.08.18	Creates a new footnote (in a given style and/or sq. brackets)
FootnoteAdd	27.08.18	Creates a new footnote (in a given style)
FootnoteEndNoteFiddle	06.05.22	Tidies up start/end of each footnote or endnote
FootnoteFiddleStartSpace	06.01.18	Removes initial space from each footnote
FootnoteNext	13.10.10	Jump to next footnote
FootnoteNextUp	13.10.10	Jump to previous footnote
FootnoteNumberNotItalic	01.06.10	Makes changes to all footnotes
FormatAlyse	07.09.19	Highlights various formatting features

FormatHeadwords	22.11.20	Adds a character style to the first word of every para in a given style
FormatNumbers	10.10.19	Formats number at cursor or numbers within a selection
FormatRemoveNotURLs	01.09.16	Removes all styles and formatting except URLs
ForumTextFormat	29.11.19	Converts text from Word to Forum and vice versa
FRedit	06.01.22	Scripted find and replace
FReditCopy	20.01.16	Copy word to make FRedit script item
FReditCopyPlus	18.01.18	Copy word to make FRedit script item + highlight + case insensitive
FReditCopyWholeWord	17.01.12	Create FRedit item for whole-word F&R
FReditHeadingsOnly	30.01.21	Run FRedit, but only on similarly formatted text
FReditListChecker	18.02.21	Checks for possible anomalies in a FRedit list
FReditListCreate	20.09.18	Adds text to list items and applies formatting
FReditListMenu	06.02.21	Provides a menu to run different FRedit lists
FReditListProcess	02.02.22	Tidies up a spelling FRedit list from cursor downwards
FReditListRun	31.03.11	Load, run and close a specific FRedit list
FReditSame	21.08.19	Create FRedit item with ^&
FReditSelect	21.10.20	Runs FRedit, but only on multiply selected text
FReditSimple	10.12.16	Performs a list of F&Rs
FReditSwap	20.01.16	Swaps the two sides of a FRedit item
FrenchQuotes	14.02.13	Switch UK quotes to French quotes
FrequencyParagraphLength	15.04.20	Creates a histogram of paragraph length
FrequencySentenceLength	15.04.20	Creates a histogram of sentence length
FrequencyWordLength	15.04.20	Creates a histogram of word lengths
FullFileNameCopy	09.05.17	Copy the full file name of the current file to the clipboard
FullNameAlyse	24.02.21	Creates a frequency list of all full names
FullNameType	31.03.11	Types out the full filename of the open file
FullPoint	23.07.21	Makes adjacent words into sentence end
FullPointInDialogue	17.02.21	Make adjacent words into sentence end
FullPointOnBullets	09.06.17	Finds bullet items and ensures they have a full point
FullPointOnCaptions	09.06.17	Finds captions and ensures that they have a full point
FunnyChange	01.06.10	Make various complicated changes to all paragraphs
FunnyFontClear	07.09.17	Makes all text in the selection the same font
FunnyFontFind	07.09.17	Finds the next paragraph that has mixed fonts
GermanQuotes	14.02.13	Switch UK quotes to German quotes
GoogleFetch	02.05.22	Launches selected text on Google
GoogleFetchCA	18.11.21	Launches selected text on Google Canada
GoogleFetchDE	18.10.21	Launches selected text on Google
GoogleFetchNL	08.08.20	Launches selected text on GoogleNL
GoogleFetchQuotes	18.11.21	Launches selected text - with quotes - on Google
GoogleFetchQuotesCA	18.11.21	Launches selected text - with quotes - on Google Canada
GoogleFetchQuotesDE	18.10.21	Launches selected text - with quotes - on Google
GoogleFetchQuotesNL	08.08.20	Launches selected text - with quotes - on GoogleNL
GoogleFetchQuotesUS	18.11.21	Launches selected text - with quotes - on Google.Com
GoogleFetchUS	18.11.21	Launches selected text on Google.Com
GoogleMapFetch	16.01.21	Launches selected text to Google Maps
GoogleScholarFetch	06.12.21	Launches selected text on Google Scholar
GoogleSSFatch	12.01.21	Uses Google to search a single specific site
GoogleTranslate	11.07.21	Launches selected text to GoogleTranslate
GreekPicker	20.06.14	Call up the Insert Symbol window set to Greek characters
GroeneBoekjeFetch	08.08.20	Launches selected text to https://woordenlijst.org
HeadingSentenceCase	18.02.20	Sentence cases this selection or paragraph (but not acronyms)
HeadingStyler	02.02.11	Styles all headings by depth of section number
HideShowPictures	31.08.11	Switch pictures on and off (Was called PictureShow)

HideShowText	07.09.17	Makes body text invisible
HighlightAllItalic	06.01.21	Highlights all text in italic
HighlightAllOff	02.04.13	Remove all highlighting, including in boxes
HighlightAllQuestions	15.02.11	Highlights all questions
HighlightCertainCharacters	21.09.18	Highlights certain characters with attributes
HighlightDuplicateSentences	01.05.16	Highlight pairs of identical sentences
HighlightDuplicateSentences2	01.05.16	Highlight pairs of identical sentences
HighlightFindDown	27.01.22	Selects the next piece of highlighted text
HighlightFindUp	27.01.22	Selects the previous piece of highlighted text
HighlightIndentedParas	01.03.11	Highlight all indented paragraphs
HighlightLister	26.05.11	List all the highlight colours used
HighlightListerDeLuxe	27.05.11	List all the highlight colours used
HighlightLongQuotesDouble	11.08.11	Highlight all long quotes (double)
HighlightLongQuotesSingle	11.08.11	Highlight all long quotes (single)
HighlightMinus	15.04.22	Removes or adds highlight in a choice of colours
HighlightMultiAuthorCitations	09.06.17	Finds and highlights all the multi-author citations in the text
HighlightNonRomanPunctuation	25.03.20	Highlights non-roman punctuation
HighlightNotThisSize	03.10.18	Highlights all text NOT the same size as the current text
HighlightOddPunctuationFormat	13.12.16	Highlights oddly formatted punctuation marks
HighlightOffWord	16.01.21	Remove highlight from all occurrences of this word
HighlightPlus	24.03.21	Adds highlight in a choice of colours
HighlightSame	16.01.21	Highlight all occurrences of this text in this colour
HighlightWithTrackChange	03.04.19	Use allcaps, smallcaps, underline for tracking highlighting
HighlightWordList	27.01.17	Highlights (and/or colours) all the words/phrases in a list
HiLightOFF	01.01.10	Removes highlight (text colour) from selected text
HiLightOffALL	01.01.10	Removes ALL highlights (text colour) from whole text
HiLightOffCurrentLine	22.01.10	Removes highlight (text colour) from selected text or current line
HiLightON	01.01.10	Adds highlight in currently selected colour
HiLightTurquoise	01.01.10	Adds highlight in turquoise
However	15.06.21	Starts a sentence with 'However', and removes the later "however"
HyphenAlyse	04.04.22	Creates a frequency list of all possible hyphenations
Hyphenate	28.01.10	Hyphenate two words
HyphenationToFRedit	04.02.22	Creates FRedit items from HyphenAlyse or PropernounAlyse files
HyphenationToStylesheet	27.01.16	Create a word list from a HyphenAlyse file
HyphenSpaceWordCount	25.04.22	Counts hyphenated word forms
IndentChanger	07.07.11	Changes paras of one indent value to another
IndentFirstSelector	18.02.13	Set left indent settings to specific values
IndentLeftSelector	18.02.13	Set left indent settings to specific values
IndentRightSelector	18.02.13	Set left indent settings to specific values
IndentsMeasure	01.02.13	Measure and display current indent settings
IndentsSet	01.02.13	Set indent settings
IndexChecker	16.01.21	Lists all pages on which this word(s) occur(s)
IndexElide	23.12.10	Add elision to an index
InitialCapItalicInNotes	03.12.11	Initial caps on significant words in italic text in notes
InitialCapItalicText	03.12.11	Initial caps on significant words in italic text in notes
InitialCapOnly	29.05.10	Reduce all-capitals to initial cap
InitialNext	29.05.10	Find run of caps
InitialSwapper	06.06.22	Swaps initials and surname (P.E. Beverley -> Beverley, P.E.)
InitialSwapperReverse	06.06.22	Swaps initials and surname (Beverley, P.E. -> P.E. Beverley)
InstantFindBottom	25.02.11	I couldn't possibly comment!
InstantFindDown	07.01.22	Finds selected text downwards
InstantFindDownWild	11.05.21	Finds selected text downwards, with wildcards set

InstantFindFormatDown	10.09.10	Find format similar to this
InstantFindFormatUp	10.09.10	Find format similar to this
InstantFindTop	18.11.10	Find this from the top
InstantFindUp	07.01.22	Finds selected text upwards
InstantJumpDown	12.01.21	Find selected text downwards
InstantJumpUp	13.01.21	Find selected text upwards
IStoIZ	14.06.22	Corrects text to give -iz-, -yz- spellings
ItalicBinomial	25.10.21	Italicises binomials
ItalicBoldTagger	02.05.16	Adds red tags to all italic and/or bold text
ItalicCount	22.07.10	Counts the number of words that are in italic
ItaliciseOneVariable	06.04.16	Run along to find the next single alpha char and italicise it
ItalicisePhrase	04.10.18	Selects text up to next punctuation mark and makes it italic
Italiciser	03.06.22	Toggles italic for next character or selected text
ItaliciseVariable	25.01.22	Runs along, finds sets of alpha chars and italicises them
ItalicKill	11.08.11	Removes italic from selected text or current line
ItalicParaDelete	23.03.17	Deletes all paragraphs that are mainly in italic
ItalicQuoteToggle	13.07.20	Toggles between italic and single or double quote
ItalicWordList	19.09.18	Creates a list of all words in italic
IZIScount	06.02.21	Counts IS/IZ spellings
IZtoIS	14.06.22	Corrects text to give -is-, -ys- spellings
JoinTwoWords	29.05.21	Joins two words
JumpNextAppliedStyle	11.08.20	Jumps to the next applied style
JumpScroll	08.10.18	Scrolls current line to the top of the page
JustifyOFF	01.06.10	Turn format off on all paragraphs
KeystrokeLister	03.02.10	Create a list of custom key allocations
KeystrokesMacroRestore	18.07.17	Applies keystrokes from a list of macros and keystrokes
KeystrokesMacroSave	13.07.17	Creates a list of all macro keystrokes
KeystrokesRestoreAll	20.07.17	Creates keybindings from a list
KeystrokesSaveAll	19.07.17	Creates a list of all user-defined keystrokes
LanguageHighlight	05.12.11	Highlight all text not in main language
LanguageSetUK	06.12.21	Sets language as UK English
LanguageSetUS	06.12.21	Sets language as US English
LawDictionaryFetch	13.09.20	Launches selected text to Dictionary.Law website
LetterDecrement	26.04.16	Find next alpha character and increment it alphabetically
LetterIncrement	26.04.16	Find next alpha character and decrement it alphabetically
LigatureConverter	09.06.17	Replaces funny codes for fi/ff/fl/ffi in converted PDF
LinesToParagraphs	16.08.19	Converts lots of individual lines of text into paragraphs
ListAllColouredWords	02.12.16	Creates an alphabetic list of all words in the selected font colour.
ListAllHeadings	15.06.19	Creates a list of all headings by style name
ListAllLinks	01.09.16	Creates a table of all URLs in the file
ListAllStyles	12.01.21	Creates a list of all styles name
ListAlyse	11.11.20	Makes a list of all the 'list' items - then you can analyse them!
ListBulleter	09.06.12	Add a bullet to every paragraph in a list
ListCheckStart	28.08.14	Jump to an auto-list number
ListHighlightedOrColoured	09.09.17	Lists alphabetically any text that is highlighted
ListHighlightedText	08.09.17	Lists alphabetically any text that is highlighted
ListHighlighter	19.10.10	This highlights all 'short' paragraphs in a text
ListItemFinder	28.08.14	Jump to an auto-list number
ListItemNumberFormatter	24.10.16	Format the numbering of current list item
ListLowercaseNoPunct	03.10.17	Lowercases the initial char + removes end punctuation
ListLowercaseSemicolon	17.12.14	Add semicolons to bulleted list + lowercase initial char
ListOfFound	16.01.21	Lists all occurrences of selected text
ListofHeadings	06.12.18	Create a list of all headings

ListOfList	16.01.21	Lists all items in a list that contain a particular text
ListOfParas	16.01.21	Lists all paragraphs (formatted text) starting with certain text
ListOfTaggedHeadings	21.09.18	Lists all tagged headings, <A>, , etc
ListOfTextParas	16.01.21	Lists all paragraphs (pure text) starting with certain text
ListRenumber	30.11.19	Makes all following numbered items in a list consecutive
ListSemicolon	15.02.11	Add semicolons to bulleted list
ListUcase	07.01.10	Upper case initial letter of list item
ListUcaseAll	07.01.10	Upper case initial letter of all list items
ListUppercaseNoPunct	29.02.20	Uppercases the initial character + removes end punctuation
LoadFilesInList	29.06.22	Loads a series of files in a Word file list
LoadTheseFiles	13.05.20	Loads all the files listed in a file list
LongParagraphHighlighter	25.03.20	Highlights all paragraphs more than a certain length
LongSentenceCheck	06.01.11	Colour long sentences
LongSentenceHighlighter	19.05.12	Highlight all sentences more than a certain length
LowercaseGlobal	10.02.11	Lowercase this phrase throughout text
MacquarieFetch	08.08.20	Launches selected text to the Macquarie dictionary
Macro list – latest versions		
MacroFetch	21.02.21	Fetches the macro named in the clipboard or at the cursor
MacroFetchKeystrokeRead	20.11.21	Reads and restores a macro's keystroke while upgrading
MacroFetchKeystrokeReadMac	20.11.21	Reads and restores a macro's keystroke while upgrading
MacroFetchUpdate	26.06.22	Updates an existing macro, preserving the keystroke
MacroIndent	01.01.10	Automatically indent a macro listing
MacroLauncher	12.05.22	Offers a list of macros to launch (was called "MacroMenu")
MacroMenuForMac	04.07.20	Offers a list of macros to launch
MacroNameToLink	11.02.21	Makes URL for macro name in clipboard or at cursor and puts in clipboard
MacroRunNoTC	01.01.22	Runs an analysis on track-accepted text
MacrosAllBackup	18.11.19	Creates a list of all macro keystrokes
MacrosAllRestore	18.11.19	Adds keybindings from a list of macro names
MacrosAllRestoreMac	03.02.18	Adds keybindings from a list of macro names
MacroSelect	20.01.21	Selects the current macro text
MacroUpdater	16.01.21	Updates to the current macro text, preserving the keystroke
MacroVersionChecker	18.11.19	Checks Paul Beverley - Version dates of all your macros against MacroList
MaggyIt	28.10.17	Creates a Maggied Paul Beverley - Version of the current file
MarkFinalOnOff	14.05.11	Switch "Mark as final" facility on/off
MatchBrackets	07.12.12	Check whether brackets match up
MatchDoubleQuotes	07.12.12	Check whether double quotes match up
MatchSingleQuotes	18.03.21	Check whether single quotes match up
MegAlyse	20.01.22	Launches a selected series of analysis macros
MendeleyPunctuationCorrection	13.09.19	Moves punctuation marks to before the note indicator
MerriamFetch	08.08.20	Launches selected text to Merriam
MerriamFetch2	21.10.21	Launches selected text on Merriam-Webster unabridged
MerriamLegalFetch	13.09.20	Launches selected text to Merriam-Webster legal website
MiniFRedit	15.10.18	Adds attributes to certain words
MoveToNextQuote	25.09.18	Moves cursor to the next quote pair
MoveToStart	15.06.21	Move the selected text to the beginning of the sentence
MultiChoiceTidierGlobal	26.01.12	Lower case first word and remove end spaces and punctuation
MultiChoiceTidierSingle	28.01.11	Lowercases initial char of answer + remove end spaces + punct
MultiFileAcceptTrackChanges	21.10.21	Accept track changes in multiple files
MultiFileComment	13.12.17	List all comments in a set of files
MultiFileCopier	13.12.17	Save a duplicate set of files with a postfix

MultiFileCount	13.12.17	Count words in a group of files
MultiFileFRedit	10.07.21	Multi-file version of FRedit
MultiFilePDF	13.12.17	Save a folder full of files as PDFs
MultiFileReferenceCollator	13.12.17	Collects all references (or foot/endnotes) from multiple files
MultiFileShowHiddenText	25.08.20	Unhides hidden text in multiple files
MultiFileText	05.01.22	Collects text plus simple formatting from multiple files
MultiFileTextForMac	17.02.20	Collects text plus simple formatting from multiple files
MultiFileTextForMac	17.02.20	Collects text plus simple formatting from multiple files
MultiFileTrackChangeReport	24.09.18	Creates a file of sentences containing TCs in multiple files
MultiFileWord	28.11.20	Multiple Word file concatenation
MultiSearch	28.05.22	Searches for a set of words in proximity
MultiSearchLoader	31.05.22	Loads text segments into MultiSearch
MultiSearchUp	28.05.22	Searches for a set of words in proximity
MultiSwitch	13.07.22	Scripted word/phrase switching
NavPaneCustomize	12.01.21	Opens the navigation pane where and how you want
NavPaneWidth	12.01.21	Widens the navigation pane
NextNumber	11.10.10	Find next section number
NextNumberPlus	11.10.10	Find next section number
NextNumberPlusUp	11.10.10	Find previous section number
NextNumberUp	11.10.10	Find previous section number
NgramFetch	18.10.21	Launches selected text on Google Ngram
NonCurlyApostrophe	01.01.10	Add non-curly single quote
NonCurlyQuote	01.01.10	Add non-curly double quote
NormaliseText	03.04.21	Sets Normal style and removes (some) formatting
NoteDeleteDbfSpace	01.06.10	Deletes double spaces from endnotes
NoteJumper	21.05.12	Jump back and forth between notes and main text
NotesCopyToInline	24.11.20	Copies notes into inline notes in brackets
NotesEmbed	04.02.21	Embed footnotes or endnotes
NotesInlineToEmbed	24.11.20	Copies in-line notes into embedded notes
NotesReEmbedByNumber	13.01.21	Re-embed footnotes or endnotes by number
NotesUnembed	19.02.16	Unembeds footnotes or endnotes
NotesUnembedBySections	28.12.11	Unembed endnotes that are numbered in sections
NumberDecrement	25.01.22	Subtracts one from the following number (or decreases the letter)
NumberIncrement	25.01.22	Adds one to the following number (or increases the letter)
NumberParasAuto	21.05.11	Adds hierarchical section numbering
NumberParasTagged	18.06.20	Adds numbering to first-level headings tagged with <a>
NumberSequenceCheckerDecimal	24.09.18	Checks consecutivity of numbering containing decimal point
NumberSequenceCheckerHierarchical	06.02.12	Check the sequence of section numbers
NumberSequenceCheckerSimple	24.09.18	Checks consecutivity of numbering
NumberToFigure	16.01.21	Converts the next number to a figure
NumberToText	24.06.22	Converts next number into text
NumberToText2	01.06.22	Convert next number into text
NumberToTextMultiSwitch	18.01.20	Finds a number, then calls MultiSwitch to change it
NumberToTextUK	24.06.22	Converts next number into text
NumberToTextUK2	01.06.22	Convert next number into text
OneLookFetch	18.10.21	Launches selected text to OneLook.com
OpenmySize	02.11.21	Opens the window to a particular size, position and magnification
OUPFetch	08.08.20	Launches selected text to OUP
OvertimeBeep	01.01.10	Sound warning beep on overtime
OvertimeBeep2	01.01.10	Sound warning beep on overtime + visual
OxfordCommaSelectiveDelete	07.02.20	Moves to next Oxford comma and/or deletes current comma first
PageHopper	08.12.10	Go to page x

PageHopper2	18.12.10	Go to page x
PageNumberChecker	09.02.12	Check that the text page number = Word's page number
ParagraphEndChecker	06.01.22	Highlights the end of all possibly punctuation-less paragraphs
ParagraphLineLengthHighlighter	11.01.22	Highlights any paragraphs longer than a number of lines
ParagraphShrink	07.01.22	Shrinks the current paragraph (for use with CitationAlyse)
ParaShort	06.11.10	Finds medium-length paragraphs
ParaWordLengthHighlighter	08.05.18	Highlights all paragraphs of a range of word lengths
ParenthesesAdd	06.06.22	Puts parentheses round the current word or phrase
ParenthesesEtcPairDelete	09.03.21	Removes the following pair of parentheses or quotes, etc.
ParticipleChanger	23.06.21	Toggles between past to present participles
PasteUnformatted	30.01.10	Pastes unformatted
PasteWithEmphasis	30.12.10	Paste with emphasis
PDFfunniesToLigatures	18.04.13	Restore ligatures that have been converted to odd characters
PDFhardHyphenRestore	18.04.13	Hyphenate falsely concatenated words
PDFHyphenChecker	25.10.19	Checks the line-end hyphenation of a converted PDF
PDFHyphenRemover	28.10.19	Finds all end-of-line hyphens, joining back to the next word
PDFpageNumberer	30.09.20	Adds page numbers to each line of a PDF text
PDFpagerOddEven	11.05.11	Highlight all the page numbers alternately left & right
PDFpagerSimple	11.05.11	Highlight all the page numbers
PDFsoftHyphenRemove	04.01.14	Unhyphenate split words
PDFspellAll	16.01.21	Underline all spelling errors
PDFspellIgnoreProperNouns	16.01.21	Underline all spelling errors except proper nouns
PDFunderlineToLigature	04.01.14	Restore underline characters into ligatures
PerCent	25.02.13	Changes percent symbol to words
Period	19.06.19	Makes adjacent words into sentence end
PhraseCount	19.05.21	Counts each of a list of words/phrases
PictureShow	31.08.11	Switch pictures on and off
Pluralise	14.01.21	Tries to make the current word plural
PrepareToReplaceDown	10.04.21	Copies selected text into the F&R box
PrepareToReplaceDownTCoff	10.04.21	Copy text into the F&R box
PrepareToReplaceFromTop	10.04.21	Copy text into the F&R box from top
PrepareToReplaceWithMarker	10.04.21	Copy text into the F&R box from top leaving marker
ProperNounAlyse	02.04.22	Analyses similar proper nouns
ProperNounToFredit	04.02.22	Picks up alternative spellings in a PN query list for a Fredit list
ProperToPronoun	02.05.18	Changes the next proper noun to a personal pronoun
PubMedFetch	08.08.20	Launches selected text to PubMed
PunctAlyse	18.10.11	Produces usage statistics of various punctuation
PunctOffBothEnds	01.06.10	Removes punctuation from both ends of a word
PunctuationBoldOff	06.10.21	Un-bolds all commas, etc. not followed by bold text
PunctuationFormatChecker	06.08.15	Variouly highlight italic/roman punctuation
PunctuationItalicOff	06.10.21	Un-italicises all commas not followed by italic text
PunctuationOff	24.08.17	Delete the next punctuation item
PunctuationOffNearHere	03.11.17	Removes the punctuation near the cursor
PunctuationOffRight	16.01.21	Removes the punctuation off a word end (and quote off start)
PunctuationSwap	03.06.22	Swaps the next punctuation mark
PunctuationSwapInDialogue	03.06.22	Swaps the next punctuation mark
PunctuationSwitcher	04.10.12	Changes order of next two punctuation marks
PunctuationToComma	19.11.21	Changes the next punctuation item to a comma
PunctuationToDoubleCloseGuillemet	19.11.21	Changes next quote mark to double close guillemet
PunctuationToDoubleOpenGuillemet	19.11.21	Changes next quote mark to double open guillemet
PunctuationToDoublePrime	19.11.21	Changes next quote mark to double prime
PunctuationToDoubleQuote	19.11.21	Changes next quote mark to double curly
PunctuationToDoubleQuoteDE	11.12.19	Changes next quote mark to German double curly

PunctuationToDoubleQuoteFR	11.12.19	Changes next quote mark to French double curly
PunctuationToEmDash	19.11.21	Changes next hyphen/em/en dash to an em dash
PunctuationToEnDash	19.11.21	Changes next hyphen/em/en dash to an en dash
PunctuationToFullPoint	19.11.21	Changes the next punctuation item to a full point
PunctuationToHardSpace	19.11.21	Changes the next item to a hard space
PunctuationToHyphen	19.11.21	Changes the word break punctuation to a hyphen
PunctuationToMinus	21.11.21	Finds punctuation and changes to minus sign
PunctuationToMultiplySign	19.11.21	Changes next x or X to multiplication sign
PunctuationToMultiplySign	19.11.21	Changes next x or X to multiplication sign
PunctuationToNonBreakingEmDash	14.06.22	Changes next hyphen/em/en dash to a non-breaking em dash
PunctuationToNonBreakingEnDash	14.06.22	Changes next hyphen/em/en dash to a non-breaking em/en dash
PunctuationToPrime	19.11.21	Changes next quote mark to single prime
PunctuationToSingleCloseGuillemet	19.11.21	Changes next quote mark to single close guillemet
PunctuationToSingleOpenGuillemet	19.11.21	Changes next quote mark to single open guillemet
PunctuationToSingleQuote	19.11.21	Changes next quote mark to single curly
PunctuationToSingleQuoteDE	11.12.19	Changes next quote mark to German single curly
PunctuationToSingleQuoteFR	11.12.19	Changes next quote mark to French single curly
PunctuationToSpace	19.11.21	Changes the next punctuation item to a space
PunctuationToThinSpace	19.11.21	Changes the next item to a thin space
QQAdd	28.05.21	Adds a QQ comment, with various features
QQAddSimple	28.05.21	Adds a QQ comment, with various features
QQSwitch	28.05.21	Jumps between QQ comment and comment marker
QQUpdate	28.05.21	Renumbers QQ comments
QuestionMark	19.06.19	Makes adjacent words into sentence end
QuotationMarker	21.05.20	Marks all quotes + displayed text
QuoteCopier	24.09.18	Copies text from one quote pair to the next
QuoteMarkEmbedder	04.11.17	Changes double quotes inside double quotes to singles
QuotesToGuillemets	26.11.20	Changes all curly double quotes to guillemets
RAEfetch	10.05.22	Launches selected text on Real Academia Española
ReferenceCheckWeb	30.08.16	Check each hyperlink and highlight accordingly
ReferenceDateShift	14.10.16	Move date from end of reference to after author(s)
ReferenceNameDateMover	16.03.22	Moves forename/initials to before surname or move year to end
ReferenceNameFinder	08.04.11	Get date from reference and add after author citation
ReferencesCollator	11.07.18	Finds reference lists, and colours, collates and sorts them
RemoveNumbersFromHeadings	15.10.19	Removes automatic numbering from headings
ReNumberNotes	02.12.20	Renumbers all note numbers in selected text
ReNumberSuperscript	28.11.20	Renumbers all superscript numbers
RepeatedWordsInParagraphs	30.12.21	Highlights any words duplicated within given paragraphs
RepeatedWordsInSentences	12.09.19	Highlights any words duplicated within a given sentence
ReplicateThisEdit	07.01.17	Replicates the change just made, through the rest of the file
ReverseList	05.09.20	Reverses the order of items in a list
RevisionsHighlight	19.02.20	Highlights all the edits in a text
RibbonMinMax	18.12.14	Toggle between maximize and minimize of the ribbon
Romanise	24.10.16	Removes italic from the next set of italic characters.
RomanPunctuationHighlight	04.01.18	Finds roman punctuation that follows italic text
RulersShow	10.02.20	Switches Word's ruler on and off
SampleFindAndDo	08.02.12	Find something specific and do things to each one
SaveAsWithIndex	13.04.21	Saves the current file, adding a postfix
ScareQuoteAdd	29.05.21	Add single quotes round a word
SciMarkPicker	10.05.11	Call up the Insert Symbol window set to Greek characters
SearchThenChange	16.01.21	Finds one of the words from a list, then changes to its alternate
SearchThenMultiSwitch	16.01.21	Finds one of your words, then calls MultiSwitch to change it

SearchTheseWords	13.09.19	Finds the next occurrence of any of a list of words
SelectCurrentPage	26.01.11	Select the current page
SelectHighlightedText	05.09.11	Selects all text in a given highlight
SelectiveUnColourUnHighlight	04.11.17	Removes highlighting + removes coloration, but only on non-program text
SelectNextHighlight	13.09.19	Selects the next piece of highlighted text
SelectParagraph	24.11.10	Selects current paragraph
SelectPreviousHighlight	13.09.19	Selects the previous piece of highlighted text
SelectSentence	05.02.22	Selects the current sentence + next sentence right
SelectTheseWords	12.12.11	Extend selection to whole words
SelectWord	14.01.21	Selects current word, and then those before it
Semicolon	19.06.19	Make adjacent words into semicolon separated
SemicolonEndPara	09.02.11	Lowercase first character + add semicolon at end
SentenceAlyse	28.09.19	Analyse the lengths of sentences
SerialCommaAlyse	25.01.22	Highlights things that might be lists with serial commas (or not)
SerialCommaCounter	12.11.19	Counts serial (or not) commas in lists
SerialCommaHighlight	18.05.19	Highlight or underline text that appears to have a serial comma
SerialNotCommaHighlight	18.05.19	Highlights or underlines text that appears not to have a serial comma
SetTextBorderStyle	01.06.10	Apply style to all textboxes
ShortTitleAlyse	17.03.22	Analyses Short titles to check references against citations
ShortTitleLister	19.05.13	Create a list of the named references in the notes
ShortTitleUnderline	17.03.22	Underlines the current author name(s)
ShowFixedSpaces	09.02.10	Fixed spaces visible
ShowFormatting	10.05.17	Display all formatting or just paragraph marks
ShowFormattingMenu	01.02.18	Displays (or not) various formatting markers, and the highlighting
ShowHideAllTracking	01.01.10	Toggle showing track changes and comments on and off
ShowHideTracksOnly	01.01.10	Toggle showing just track changes on and off
ShowStyles	06.05.12	Show style names as <A>-type codes in the text
SinglePrime	19.02.16	Add single prime
SingleQuotesDoubleTopical	19.11.19	Changes single quotes around current text to doubles
SmallCapWord	15.06.21	Makes the current word smallcaps
SmartFinder	15.01.21	Finds this text/note/page/etc, etc immediately.
SortAndRemoveDups	19.09.18	Sort the selected text
SortCaseSense	17.02.11	Sort into separate lists: Lcase/Ucase
SortIt	02.11.19	Sort the selected text
SortListInText	16.01.21	Sorts items in a list in the text alphabetically.
SortNumberedList	03.07.12	Sort references, ignoring the number at the beginning
SortOnTextAfterDelimiter	28.10.17	Sorts the selected list based on second 'field'
SortTextBlocks	28.10.17	Alpha sorts blocks of text by first line
SpaceAfterSelector	18.02.13	Increase and decrease space after paragraph
SpaceBeforeSelector	18.02.13	Increase and decrease space before paragraph
SpecialCharList	28.02.10	Creates a list of the Unicode characters in the document
SpecialSortsLister	25.11.20	Collect all special sorts in a file
SpecialWordSpellAlyse	01.12.20	Does a ProperNounAlyse of all long 'spelling error' words
SpellAlyse	15.04.22	Complete spellchecking system
Spellcheck	06.12.10	Run a spellcheck
SpellcheckWarn	30.04.11	Run a spellcheck, but beep if not UK or langauges are mixed
SpellcheckWordCurrent	10.12.11	Spellcheck single word in current language
SpellcheckWordUK	25.08.11	Spellcheck single word UK
SpellcheckWordUS	25.08.11	Spellcheck single word US
SpellcheckWordUSUK	19.12.11	Spellcheck single word in NOT the current language

SpellingErrorHighlighter	24.03.21	Highlights all spelling errors
SpellingErrorLister	02.03.22	Generates an alphabetic list all the spelling 'errors'
SpellingErrorListerBilingual	03.09.20	Generates an alphabetic list all the bilingual spelling 'errors'
SpellingListProcess	27.04.16	Tidy up a spelling FRedit list from cursor downwards
SpellingShowToggle	25.05.20	Switches visible spelling error indication on and off
SpellingSuggest	22.06.22	Checks/corrects spellings or adds/subtracts FRedit suggested change
SpellWordChange	14.01.21	Accepts Word's spelling suggestion for current word
SpikeCopy	26.02.11	Copy to spike
SpikeCut	26.02.11	Cut to spike
SpikePaste	26.02.11	Paste the whole contents of the spike
SplitScreen	28.05.21	Splits the screen
SpracheCH	20.05.20	Sets language as SwissGerman
SpracheDE	20.05.20	Sets language as German
StrikeAndColour	01.09.16	Adds strikethrough and colour
StrikeSingle	15.08.17	Adds or removes strike-through
StrikeThroughAllURLs	24.02.22	Strikes through all URLs to protect them from changes
StyleBodyIndent	20.01.17	Adds body style generally, plus No indent after headings
StyleCopy	04.01.11	Copy style
StyleDetector	14.08.19	Displays or speaks the current style name
StyleEffectDetector	10.09.19	Reports the style and effects applied to the text
StylePaste	04.01.11	Paste style
SubscriptSwitch	17.05.22	Toggle superscript and subscript
SuitToText	21.07.11	Convert playing card suit symbols to text
SuperscriptNumberFormatter	28.10.19	Corrects spaces + punctuation on superscripted numbers
SuperscriptNoteNumber	11.08.11	Superscript note number
SuperscriptSwitch	17.05.22	Toggle subscript
SuperSubConvert	20.11.17	Changes weird super/subscript format to proper ones
SurnameSorter	01.10.18	Sorts a name list on surname, but allowing for postfixes
SwapCharacters	06.10.21	Switches characters either side of caret
SwapNames	06.10.14	Swap adjacent names
SwapPreviousCharacters	06.10.21	Switches the two chars in front of the caret
SwapPunctuation	02.02.21	Swaps the punctuation at the end of some words
SwapThreeWords	14.01.21	Swaps three adjacent words (A and B to B and A)
SwapWords	07.06.22	Swaps adjacent words
SymbolFontCheck	23.02.10	Greek symbol font checker
SymbolToUnicode	11.11.13	Converts Symbol font characters to Unicode characters
TableBordersToggle	14.08.19	Switches table borders and rules on and off
TableCallouts	14.12.10	Table callout inserter
TableCellsInitialCaps	01.09.16	Applies an initial capital to every cell in the selected range
TableEdit	01.10.18	Edits items in the cells of some or all tables
TableEmDasher	05.03.13	Empty cells and hyphen/en dash to em dash
TableNext	14.08.19	Steps through tables, one by one
TablePrevious	14.08.19	Steps through tables, one by one
TableSpaceBeforeHeading	04.11.17	Adds a blank line where a numbered heading follows a table
TablesToTabText	27.06.17	Converts all tables into tab-separated text
TableStripper	13.01.21	Strips out all tables into a separate file
TagA	29.10.11	Adds a tag to the current paragraph
TagBulletLists	30.04.12	Add tags to all bullet lists
TagChecker	09.06.17	Checks the continuity of a paired tag, e.g. ,
TagDQ	03.10.17	Add a tag to the current paragraph
TaggedTextToSmallCaps	01.02.20	Finds tagged text, lowercases it and changes to small caps
TagHighlighter	09.06.17	Highlights all of the ranges a paired tag, e.g. ,
TagList	19.01.13	Add tags to a numbered or bulleted list
TagNI	04.11.17	Adds an <ni> tag after every heading

TagSelectedOrBold	02.05.16	Add red tags to the currently selected text or italic text
TagSelectedOrItalic	13.04.16	Add red tags to the selected text or italic text
TagsShowHide	08.09.20	Changes tags into hidden text and then reveals them again
TagVariousAttributes	13.07.17	Add red tags to all italic text
TeAkaFetch	29.05.22	Launches selected text on the Maori dictionary Te Aka
TextBoxFrameCut	01.06.10	Remove textboxes and frames
TextProbe	05.05.17	Find funny character codes
TextToNumber	15.10.21	Finds numbers expressed in words + converts to figures
ThatWhich	26.07.10	Changes that to which and vice versa
ThesaurusFetch	08.08.20	Launch selected text to thesaurus.com
ThesaurusFetchDE	08.08.20	Launch selected text to openthesaurus.de
ThesaurusFetchNL	08.08.20	Launch selected text to https://synoniemen.net
TitleHeadingCapper	18.02.20	Uppercase initial letter of all major words (title case)
TitleInQuotesCapper	25.08.20	Uppercases the initial letter of all major words (title case)
TitleInQuotesCapperGlobal	25.08.20	Uppercases the initial letter of all major words (title case)
TitleInSquaresCapperFR	22.01.20	Uppercase initial letter of all major words (title case)
TitleRemoveQuotesAndCaps	13.12.16	Removes quotes from current sentence, then makes it lowercase
TitlesReveal	06.08.21	Switches the next light grey font colour to full colour
TitlesShowHide	25.11.20	Toggles between light grey font colour text and full colour
TitleUnCapper	27.10.15	Uppercase initial letter only on first word
ToCback	18.07.10	Jump back to table of contents
ToCupdate	16.12.13	Update (and customise) the table of contents
ToggleNextCharCase	28.06.09	Changes case of the next character/selection
ToggleNextCharCase2	28.09.09	Changes case of the next character/selection
TooDifficultWordHighlighter	15.02.12	Highlights any words not included in word list
TrackAcceptMoveOn	19.02.22	Accepts change and moves to the next
TrackChangeAccept	23.11.11	Accepts the track changes on the current line
TrackChangeCounter	22.04.20	Counts all the edits in a document
TrackChangeDisplaySelect	11.12.19	Cycles through track change display levels
TrackChangeDisplaySwitch	26.01.21	Switches track change displays: Simple <=> AllMarkup
TrackChangeReject	23.11.11	Rejects the track changes on the current line
TrackChangeShowHide	16.07.15	Set up track changes to taste
TrackDateTimeList	13.05.20	Lists the date and time of all track changes
TrackingShowSwitcher	23.02.11	Toggle visibility of track changes
TrackingShowSwitcherExtreme	23.02.11	Toggle visibility of track changes
TrackOnOff	01.01.10	Toggle track changes on and off
TrackOnOffAudible	26.02.11	Track on/off with audio feedback
TrackOnOffVisible	19.06.19	Switches tracking on/off with visible background
TrackOnOffVisibleMac	07.03.19	Switches tracking on/off with visible background
TrackSimplifier	13.02.20	Accepts certain types of tracked features
TweetCheck	10.05.18	Highlights paragraphs with too many characters
TypeA	15.01.21	Types 'a' or 'A', (or 'an' or 'An') between two words
TypeSectionNumber	29.03.17	Adds a section number to the current heading
TypeThat	05.02.22	Types 'that' after the current word.
TypeThinSpace	25.10.13	Types and highlights a thin space
TypeTimesX	25.09.18	Types '(x2)' then moves back to the number, ready to increase it
UKUScount	15.06.21	Counts relative spellings between UK and US English
UKUShighlight	22.11.14	Mark US spellings within UK text and vice versa
UnderlineOnlyItalic	08.06.17	Removes all underlining, then underlines all italic text
